12 days to go.

18 of 31 done · 14 boxes packed · 8/20 addresses changed.

This week 5 tasks

☐ **Address changes: bank, employer, doctor, insurance**
☐ Admin · by Sep 14 · overdue

☐ **Defrost the freezer**
☐ Pack · by Sep 21

☐ **Pack a bag as if going away for 3 days**
☐ Pack · by Sep 21

☐ **Cash / snacks / water for move day**
☐ Plan · by Sep 21

☐ **Take meter readings (photo) at the old place**
☐ Admin · by Sep 21

☐ **First-night box**

Box 1 · Kitchen — kettle, mugs, tea, sheets, towel, toilet paper, chargers, meds, lamp, snacks, scissors
Goes in the car, not the van.

Bathroom 1

Office 2

Storage 1

The rule for the box mountain

Unpack kitchen and bedroom. Sleep. Everything else, one room a week. A flat that is 60% unpacked for a month is a normal flat.

+ Box

Focus Flow Move v1.0

a moving planner for overwhelmed brains: a countdown checklist that adapts to your moving date, box labels with contents so you can find the kettle on night one, address-change list, moving budget, and a first-week plan.

Hi. This will be quick.

Focus Flow Move is a real app that lives in a single file. There is no account, no server and nothing to install. You set the move date; 31 tasks get real dates from eight weeks before to two weeks after; Today shows only this week; every box gets a number, a room and its contents so you can search "kettle" on night one; the address-change list and the budget are pre-filled. That's the whole method.

Everything you type stays on your device. Nobody can see it — not us, not anyone. The trade-off is that **you** are in charge of backups (see "Your data"). It's one tap; the app reminds you.

What's in your download

FILE	WHAT IT IS
Focus-Flow-Move.html	The app. Keep this file somewhere safe (your Documents folder is perfect).
Focus-Flow-Move-Quick-Start-Guide.pdf	This guide.
README.txt	The two-line version of this guide, with your iPhone link.

The 3-minute start

- 1 Unzip the download.** Windows: right-click → Extract All. Mac: double-click the ZIP.
- 2 Open Focus-Flow-Move.html.** Double-click it. If it opens in the wrong program, right-click → Open with → Chrome / Edge / Firefox / Safari.
- 3 Bookmark it** (Ctrl/Cmd + D) so it's one click away from now on.
- 4 Answer 3 quick questions:** move date and new address, rooms, how you're moving. Or tap *"Explore with example data"* first.
- 5 Open Today each week** and do what it says. Number every box as you tape it.

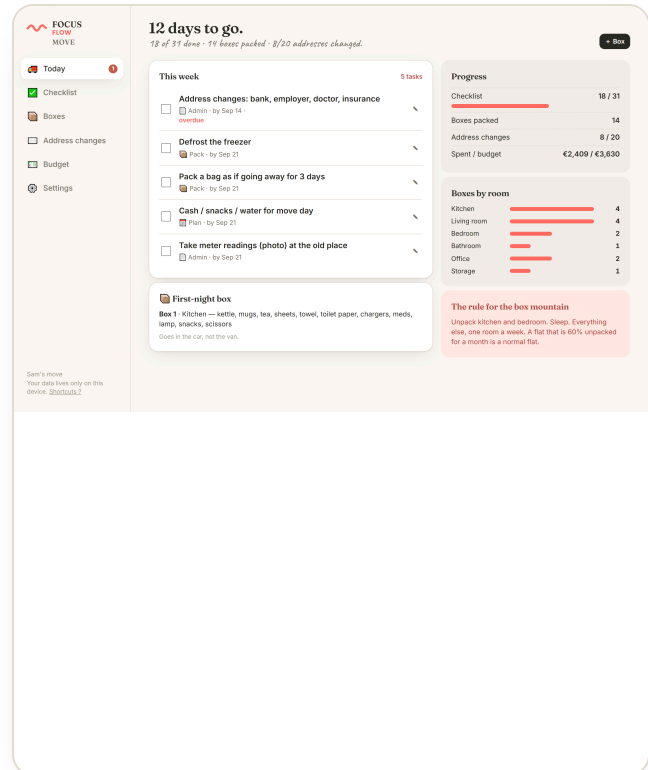

Nothing you do here is permanent. Every delete has an Undo. "Start fresh" is always in Settings. Play.

Only this week, please

Today shows the countdown ("12 days to go"), this week's tasks with dates (overdue in coral), the first-night box, and progress across tasks, boxes, addresses and budget.

Checklist is the whole plan grouped by weeks before and after move day: quotes and notice at 8 weeks, boxes and time off at 7, declutter at 6, utilities and mail redirect at 4, room-by-room packing at 3, first-night box and address changes at 2, freezer and meter readings at 1, move-day rules, then "kitchen and bedroom only" and the admin afterwards. Tick as you go; **Hide done** keeps it short. Add your own tasks with a week number; they get a date too.

If the date moves, change it in Settings — every task moves with it.

BOXES

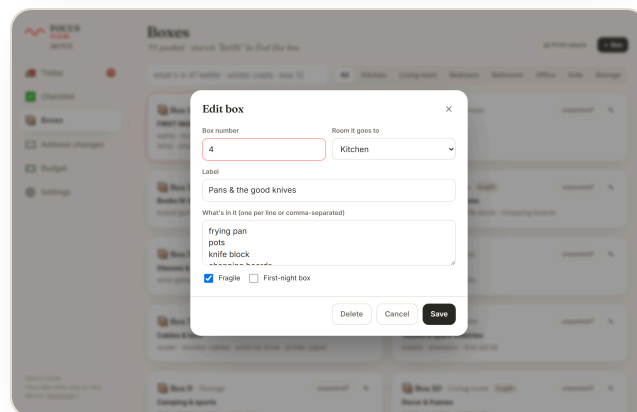

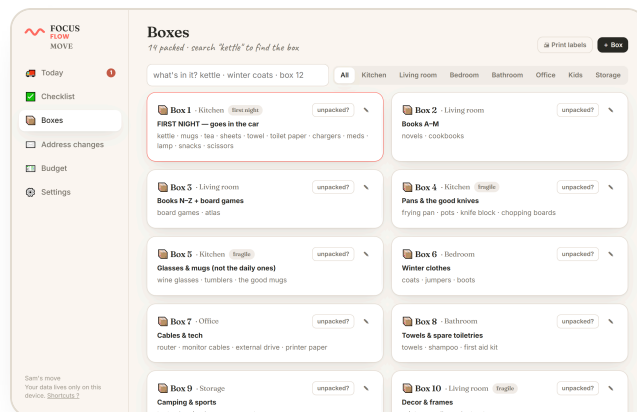

A number, a room, the top three things

Each box: number (auto), room it goes to at the new place, a label, what's inside (one per line or commas), fragile, first-night. The list is searchable by any word — "kettle", "winter coats", "box 12" — and filterable by room.

Unpacked ✓ marks progress after the move.

Print labels makes one big label per box: number, room, FRAGILE / FIRST NIGHT flags and the contents. Tape one on each box, on the side that faces out.

The first-night box (one tap to create): kettle, mugs, tea, sheets, towel, toilet paper, chargers, meds, a lamp, snacks, scissors, bin bags. It goes in the car, not the van.

The admin nobody remembers

Address changes

Twenty pre-listed: banks, employer, tax office, doctor, dentist, insurances, driving licence, voter registration, phone, internet, utilities, online shops, subscriptions, school, vet, friends, post redirect. Tick, add notes ("done online", reference numbers), add your own. **Copy new address** puts it on the clipboard for every form. Do them in the fortnight before, while verification codes still reach the old address.

Budget

Planned vs paid per line: movers, boxes, deposit, cleaning, furniture, utilities, and a **takeaway week** — because you will not cook, and budgeting it removes the guilt.

Budget

£2,107 spent of £3,630 planned

Cost

WHAT	PLANNED	PAID	
Movers / van	€850	€200	↘
Boxes & materials	€90	€84	↘
Deposit	€1,800	€1,800	↘
Cleaning	€150	—	↘
New furniture	€600	€230	↘
Utilities setup	€120	€60	↘
Takeaway week	€120	—	↘
Other	€100	€35	↘
Total	€3,630	€2,409	

Add a "takeaway week" line. You will not cook for a week. Budget it and enjoy it.

The rule for the box mountain

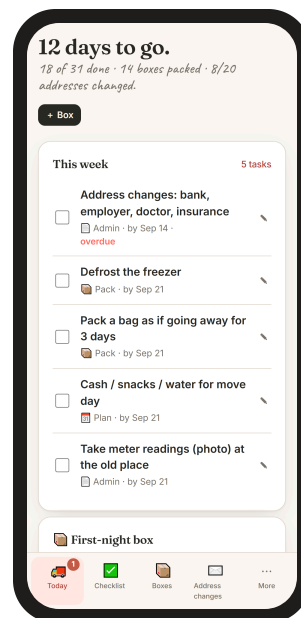

Move day: first-night box in the car; meter readings (photo) at both ends; find kettle, sheets, toilet paper, chargers — then stop.

Week after: unpack kitchen and bedroom only; return old keys; register with a new doctor. **Two**

weeks after: ID, licence, voter registration; then one room a week.

A flat that is 60% unpacked for a month is a normal flat. The app keeps the list so your head doesn't have to.

Photograph the back of the TV and the router before you unplug anything. Future-you, on the floor, with six identical cables, will be grateful.

Where your data lives, and how to keep it safe

The app saves automatically to your browser's local storage on this device. It never sends anything anywhere. That means two things:

✓ Private by design

No account, no password, no email, no tracking. Closing the tab, restarting the computer, going offline — all fine, your data is still there when you come back.

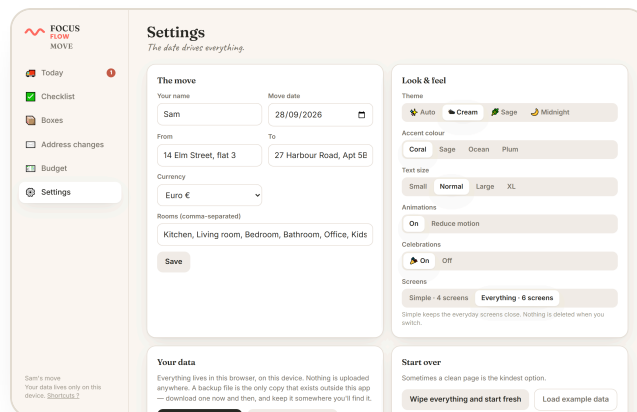

⚠ Backups are yours to make

Clearing browser data, using a private/incognito window, or some "cleaner" apps can wipe local storage. So, once in a while (the app reminds you after 14 days of changes):

- 1 Settings → **Download backup**. A small .json file lands in your Downloads.
- 2 Move it somewhere you'll find it (a folder, or your cloud drive).
- 3 To restore — on this or any other device — Settings → **Restore a backup** and pick the file.

Encrypted backups

Settings → **Encrypted backup** locks the file with a passphrase you choose (AES-256). Perfect for cloud drives. There is no reset — if you lose the passphrase, nobody can open it, not even us.

Using the app in a private/incognito window will lose your data when the window closes. Use a normal window.

Sharing a home or a household? Each person opens the file in their own browser profile — data is kept separately.

Opening the app on each device

DEVICE	HOW
Windows	Keep the .html file in Documents. Double-click → opens in Edge or Chrome. Bookmark it. Optional: in Edge/Chrome, menu → "Install page as app" / "Create shortcut" → it gets its own window and icon.
Mac	Keep the file in Documents. Double-click → Safari (or right-click → Open With → Chrome). Bookmark it, or drag the address bar icon to the Dock.
Chromebook / Linux	Open the file in Chrome from the Files app. Bookmark it.
Android	Copy the file to your phone (email it to yourself, or use Google Drive → Download). Open it with Chrome from the Files app. Chrome menu : → Add to Home screen gives you an app icon.
iPhone / iPad	Open https://pablo96si.github.io/focusflow-move/ in Safari. Tap the Share button (the square with an arrow) → Add to Home Screen → Add. You now have a Focus Flow icon that opens full-screen, works offline and keeps your data on your phone. The link only serves the app — nothing you type is sent to it. Please keep the link private; it is part of your purchase.

The web-app link works everywhere

The same link also works in Chrome on Android (menu : → Add to Home screen), in Edge/Chrome on Windows (Install app) and in Safari on Mac. Use the file or the link — whichever you prefer. Data is stored separately in each, so pick one and use a backup file to move between them.

Moving to a new device

Old device: Settings → Download backup. New device: open the app → Settings → Restore a backup. Two minutes.

Updates

Re-download from your Etsy purchases page any time. Open the new file, then Restore a backup if your data isn't already there.

Little questions, quick answers

Moving in three weeks, not eight?

Set the date; tasks older than today show as overdue on Today. Tick what is done, skip what is not needed. The list adapts; the guilt is optional.

Moving abroad?

Add tasks with week numbers (visa, customs, shipping quotes). The address list works the same.

Can two people use it?

Keep it on a shared tablet, or share a backup file. Or split it: one person owns boxes, the other owns admin.

After the move, what then?

Keep the box list until everything is unpacked, then export a backup and move on. Focus Flow Inventory picks up where this leaves off.

Something looks wrong on my screen.

Try a different browser (Chrome, Edge, Firefox and Safari are all supported), and make sure it's up to date. Then message us on Etsy with a screenshot — we answer.
