

FOCUS FLOW · THE SUITE

The Handbook

33 apps, one Hub, one folder – and how to actually use them

FOCUS FLOW Suite

NEW
IPHONE READY

33 apps. One Hub.
Your whole life, offline.

the complete Focus Flow Suite: every app we make, plus the Hub that reads them all and shows what needs you today

No account, ever Works offline

Lifetime · all future apps Data stays on your device

Good morning, Sam.
15 apps in use · 9 things that need you.

Needs you today

- Mood · No check-in yet today
- Meds · 1 / 2 doses today
- Meds · Refill soon: Elvanse
- Plants · 2 plants to water today
- Work · 2 actions due
- Clients · 1 invoice unpaid - €1,850
- Clients · 1 follow-up due
- Ledger · 1 invoice unpaid
- Car · Parking permit 12 d

Day · Planner, Focus Flow, routines
3 open tasks

Home Backup off Goals More

Everything in this box runs on your own device. No account, no server, no one but you. · © Focus Flow Methods · Personal licence for one household.

Five minutes, then you're set.

You downloaded two ZIPs and this Handbook. Unzip both into **one folder**. You'll have:

WHAT	WHERE
Focus-Flow-Suite-Hub.html — the Hub	top of the folder
Apps/ — 33 apps, one .html file each	Apps/Focus-Flow-Habits.html, ...
README.txt — every private web-app link	top of the folder
Quick Start Guides — 9 pages per app (PDF)	online, linked from the Hub's Guides screen and the README

On a computer

1. Open **Focus-Flow-Suite-Hub.html** (double-click; Chrome or Edge is best).
2. Pin the three apps you'll start with.
3. Open any app from the Hub. Each has a 3-step setup, or "Explore with example data".
4. Bookmark the Hub. Don't use a private window — it forgets on close.

On a phone or tablet

1. Open an app's **web-app link** (README, or the pages that follow) in Safari or Chrome.
2. Share → **Add to Home Screen**. It installs with the Focus Flow icon and works offline.
3. Do the same with the Hub link. On that phone, the Hub reads every app you've added.

The three rules

1. One tap is the whole job. Every app is built so the daily action takes seconds and the record is a side effect. Don't "keep" anything; tap.

2. Simple mode first. Four screens until you want six. Everything mode is one switch in Settings.

3. Backup once a month. Hub → Backup all → one click, one file. Your data is only on your device — which also means only you have a copy.

Where is my data? In your browser, on this device. The Hub can only see apps that run in the same place as it: all as local files in the same folder, or all as web-app links on the same device.

Thirty-three is a lot. Start with three.

Every day

Day

Planner, focus timer, routines

Habits

Tiny habits, streaks, bad days allowed

Sleep

Nights, wind-down, energy

Meals

Dinner plan, grocery, pantry

Fit

Workouts, routines, measures

Ledger

Bookkeeping, tax pot, reports

Debt

Snowball / avalanche, payoff date

Jobs

Job hunt pipeline, stories, follow-ups

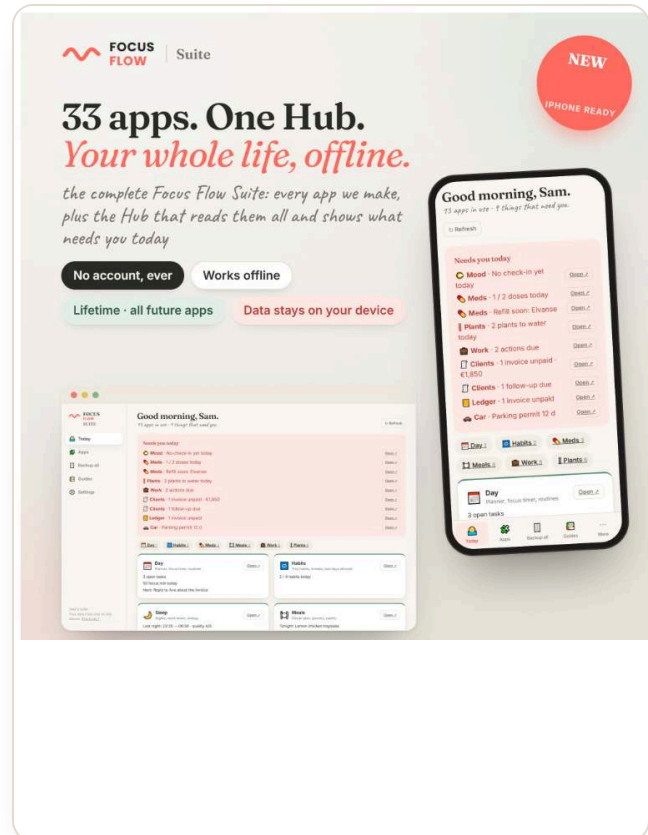

One dashboard for everything on this device

Today reads each app's data and summarises it in a few lines — doses taken, plants to water, invoices unpaid, days sober, tonight's dinner. Urgent lines float to the top under **Needs you today**, each with an Open button. Pinned apps sit above with number shortcuts.

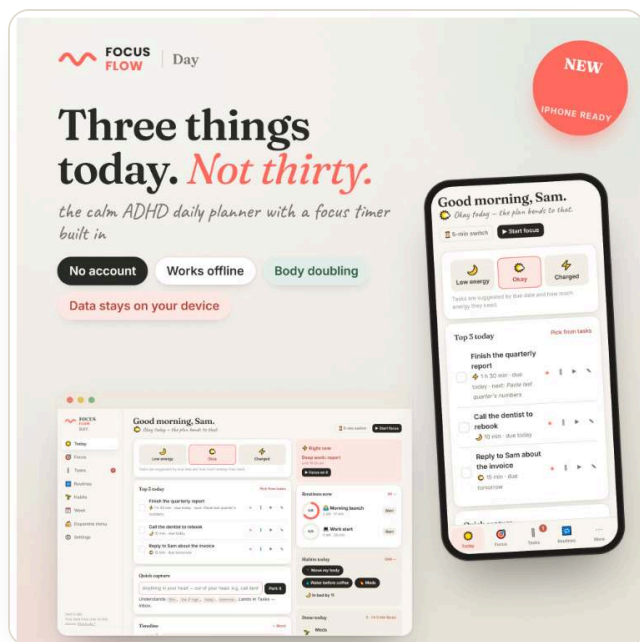

Apps: all 33 by category — status, pin, guide, open. **Backup all:** every app's data in one JSON file; restore on a new device in three steps, pick which apps, undo right after. **Guides:** this Handbook and a 9-page Quick Start Guide per app.

Settings: open apps as local files (computer) or web-app links (phone); hide apps you don't use.

Hub link for your phone: <https://pablo96si.github.io/focusflow-hub/>

Focus Flow Day · Planner, focus timer, routines

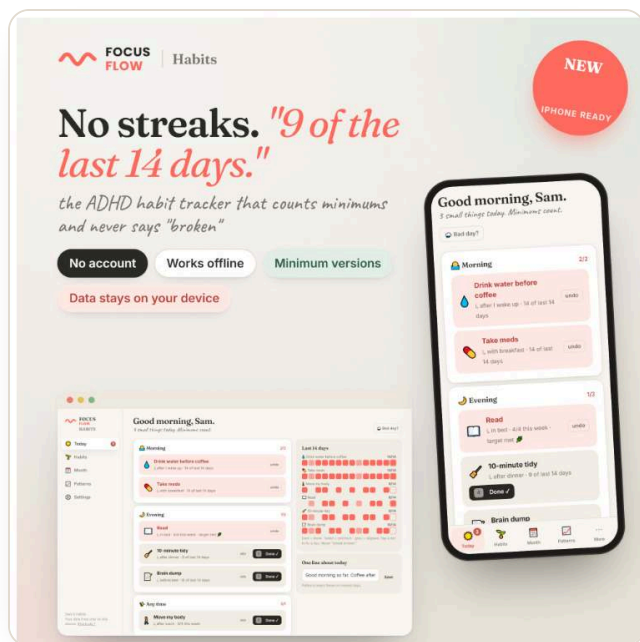

ADHD Planner App

- **TODAY** · Energy check-in (low / okay / charged) that changes what the app suggests. Top 3 with a hard limit of three. "Right now — one thing" card. Quick capture that understands "call dentist 10m low tomorrow". A generous-block timeline. A 5-minute transition timer for switching tasks.
- **FOCUS** · A disc that shrinks as time passes (visual timer for time blindness). Presets adapt to your energy — on a low day, 5 minutes is a real block. **BODY DOUBLING**: brown / pink / rain / white noise generated inside the app, no downloads. Gentle chime, break suggestion, a small reward from your dopamine menu when a block ends. Full-screen mode hides everything else.
- **TASKS** · Inbox → Next → Someday → Done. Energy level, rough minutes, optional due date. **THE TASK LADDER**: break anything into embarrassingly small steps and start a "5-minute version" on the first one. Task paralysis, meet first step.
- **ROUTINES** · Morning launch, shutdown, work start, after-work reset, weekly reset — 5 templates you cut down until they're easy. Run one step at a time with minutes shown. Resets daily; half-done still counts.
- **HABITS** · "Done 9 of the last 14 days", never "streak broken". A minimum version for each habit for the worst days. Tap any day in the grid.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Day.html	https://pablo96si.github.io/focusflow-day/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Day-Quick-Start-Guide.pdf

Focus Flow Habits · Tiny habits, streaks, bad days allowed

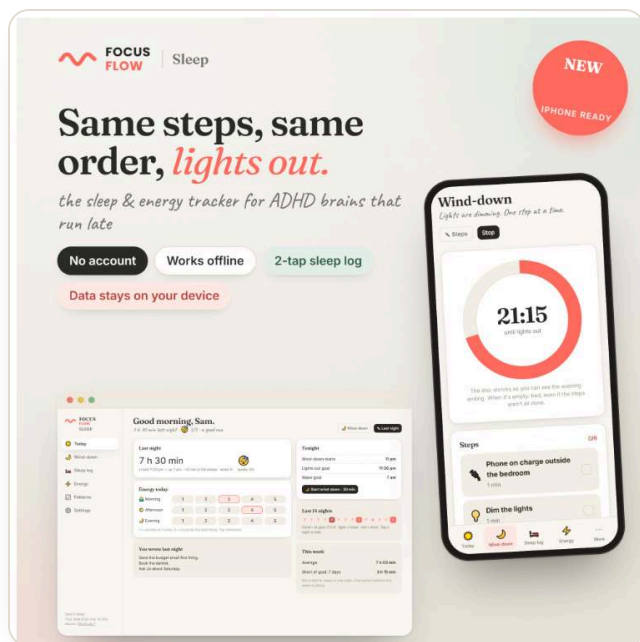

ADHD Habit Tracker App

- **TODAY** · Habits grouped morning / afternoon / evening / any time, each with its anchor and count. Done ✓ or min. Keys 1–9 tick rows. Bad-day mode (press b) swaps every habit for its minimum. 14-day dot rows per habit (dark = done, faded = minimum, grey = skipped) — tap a dot to fix a day. One-line note about today.
- **HABITS** · Name, emoji, minimum version, time of day, anchor, target (daily or N x a week), colour. 10 ideas with minimums and anchors already written. Last-30-day rate, this week's count. Archive instead of delete. Gentle limit on active habits.
- **MONTH** · Heatmap of all habits (darker = more done) or one habit at a time. Tap a day to cycle done → minimum → skipped → clear. Monthly totals: habits done, full days, minimum days, bad-day mode used.
- **PATTERNS** · 14 / 30 / 90 days. Completion by habit with a suggestion for the hardest one, by day of the week ("Wednesdays are the hard one"), share of minimum days, bad days, skips, and your notes from days with a miss.

Apps/Focus-Flow-Habits.html	https://pablo96si.github.io/focusflow-habits/	https://pablo96si.github.io/focusflow-suite/guide/s/Focus-Flow-Habits-Quick-Start-Guide.pdf

Focus Flow Sleep · Nights, wind-down, energy

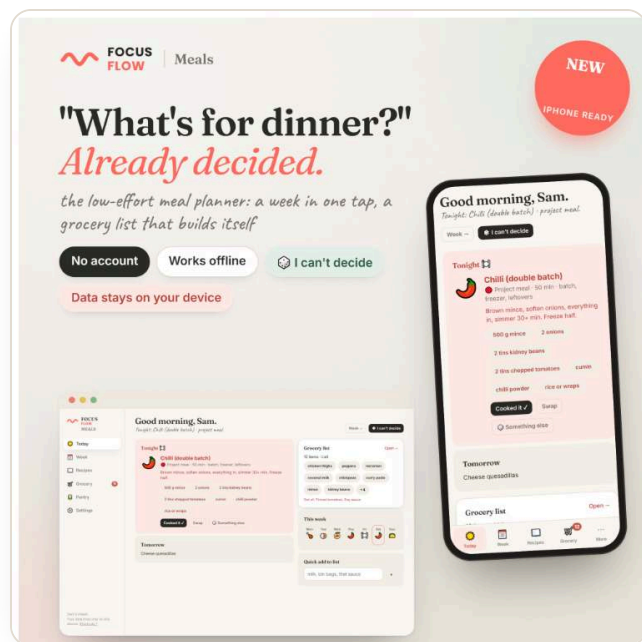

Sleep Tracker App for ADHD

- **TODAY** · Last night (hours, quality, factors), preset chips to log a night in one tap, energy 1–5 for morning, afternoon and evening, tonight's wind-down start and lights-out goal, caffeine cutoff nudge, 14-night grid, weekly average and shortfall.
- **WIND-DOWN** · One shrinking timer for the whole ritual (30 min, adjustable) plus big-button steps: phone on charge outside the bedroom, dim lights, tomorrow's 3 things, shower, teeth, meds, stretch, read. Soft chime. "Tomorrow's three things" box shows up on Today next morning.
- **SLEEP LOG** · Lights out, got up, minutes to fall asleep, times awake, quality emoji, 12 factor chips (caffeine after cutoff, screens in bed, meds late, alcohol, exercise, nap, stress, late meal, hyperfocus late, doom-scrolling...), note. Short nights flagged.
- **ENERGY** · 14-day grid with hours underneath. Sleep → energy comparison (after a full night vs a short one). Best bedtime for next-day energy.
- **PATTERNS** · 14 / 30 / 90 days. Hours chart, plain-English insights after 7 nights, factor comparison (quality with vs without), day-of-week averages, usual bedtime, bedtime consistency ± minutes, wind-down completion. Print for a doctor.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Sleep.html	https://pablo96si.github.io/focusflow-sleep/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Sleep-Quick-Start-Guide.pdf

Focus Flow Meals · Dinner plan, grocery, pantry

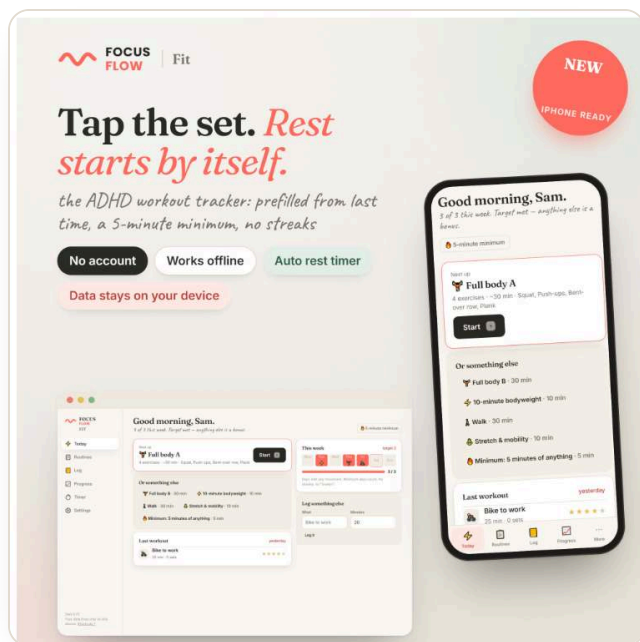

Meal Planner App with Grocery List

- **TODAY** · Tonight's recipe with steps and ingredients on one card, "Cooked it ✓", swap, dice by mood (easy · comfort · quick · leftovers · no-cook). Tomorrow with a "defrost tonight" flag. Grocery preview. Seven-emoji week with "Fill empty nights". Quick add to the list.
- **WEEK** · Dinner (plus breakfast / lunch if you want) for seven days. Pick a recipe, or leftovers / eating out / freezer night / "cereal is dinner", or type anything. Copy last week. Fill empty with the dice (easy after hard). Effort row for the whole week.
- **RECIPES** · Effort level, minutes, tags (comfort, quick, leftovers, veggie, kid-friendly, freezer, no-cook, batch, cheap, fancy), ingredients, short steps, link, rating, last cooked. 12 real starter dinners. Filter and search.
- **GROCERY** · Builds from this week's recipes, splits amounts, skips what the pantry has, merges duplicates, files by aisle (Produce, Meat & fish, Dairy & eggs, Bakery, Pantry, Frozen, Drinks, Household). Comma-add several. Tick, move aisle, copy as text.
- **PANTRY** · Staples with have · low · out. "Out" joins the grocery list automatically. 18 common staples in one tap.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Meals.html	https://pablo96si.github.io/focusflow-meals/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Meals-Quick-Start-Guide.pdf

Focus Flow Fit · Workouts, routines, measures

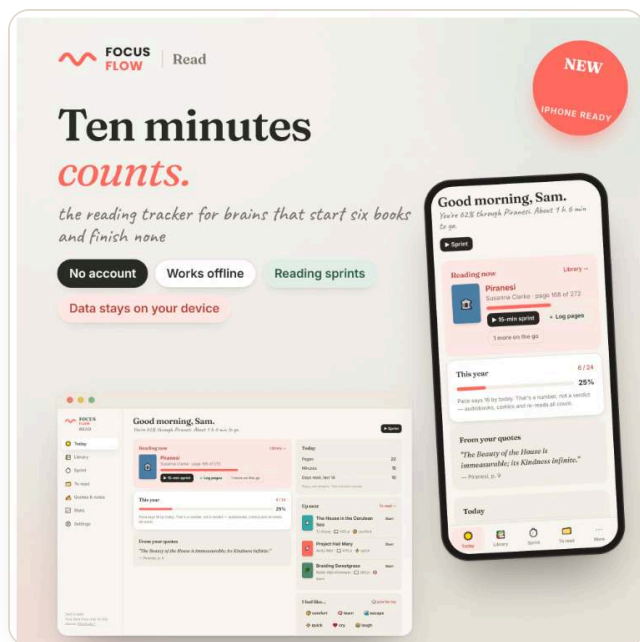

Workout Tracker App for ADHD

- TODAY · "Next up" (your main routines in rotation), the other routines one tap away, the 🔥 5-minute minimum, this week's days-moved bar against your target, last workout, and "log something else" for bike rides and dog walks.
- WORKOUT MODE · Exercises as cards, sets as chips prefilled from last time ("8 × 20 kg", "30 s"). Tap = done. 🖱 only if it changed. + set. Auto rest timer with chime, skip and +30 s. Elapsed time. Finish ✓ with how-it-felt (five faces), minutes and a one-line note. Stopping halfway saves what you did. Survives a closed tab.
- ROUTINES · Main / short / minimum. Exercises with sets, target and mode (reps @ weight, seconds, minutes). 6 starters: Full body A & B, 10-minute bodyweight, Walk, Stretch & mobility, Minimum. Duplicate, edit, delete with undo.
- LOG · Every workout by month with minutes, sets, weight moved, feel and note. Edit, delete with undo.
- PROGRESS · Days moved per week (last 8) and how many weeks hit the target. Last 30 days: workouts, minutes, sets, weight moved, average feel, minimum workouts. Best per exercise with the trend since your first set. Optional body weight entries.

Apps/Focus-Flow-Fit.html	https://pablo96si.github.io/focusflow-fit/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Fit-Quick-Start-Guide.pdf

Focus Flow Read · Reading now, TBR, sprints

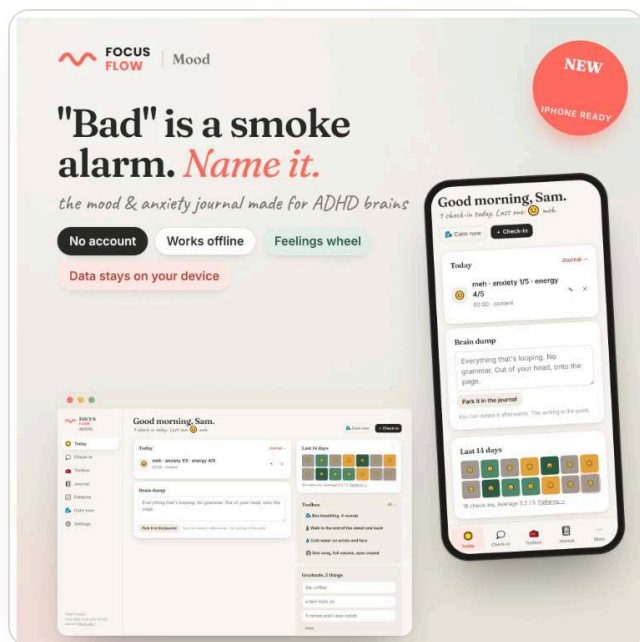

Reading Tracker App for ADHD

- **TODAY** · Reading now with page, percent and time left; sprint or log pages; this year's goal and pace (gently); up next from the pile; "I feel like..." picks a book by mood; 🎲 picks at random; a quote of the day; today's pages and minutes.
- **LIBRARY** · Reading now · Paused · Finished · Abandoned (allowed). Title, author, pages or minutes, paper / e-book / audio, genre, mood tag, cover emoji and colour, notes. Progress bars, ratings, one-line reviews. Search.
- **SPRINT** · Shrinking-disc timer, 10 / 15 / 25 / 45 minutes or custom, brown / pink / rain / white noise body doubling, chime, then "page you're on now" → logged. Reaching the last page finishes the book with confetti.
- **TO READ** · Five slots (adjustable). Reorder, Start, send to Someday. Full pile = finish or abandon one first.
- **QUOTES & NOTES** · The line, the book, the page, why it landed. Searchable.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Read.html	https://pablo96si.github.io/focusflow-read/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Read-Quick-Start-Guide.pdf

Focus Flow Mood · Check-ins, journal, safe plan

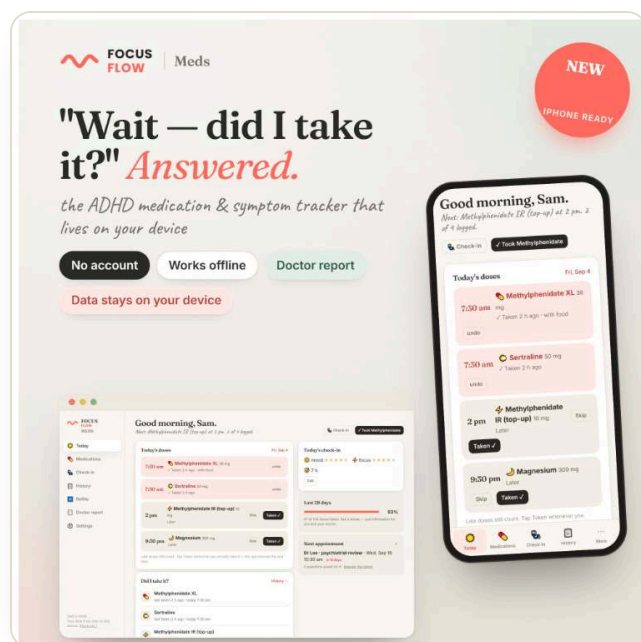

Mood Tracker App for ADHD & Anxiety

- **TODAY** · Today's check-ins, a "that last one was rough" card that hands you four tools and a breathe button, brain dump box, 14-day mood grid, gratitude (three real things).
- **CHECK-IN** · Mood (5 emoji), anxiety and energy (1–5), feelings wheel (happy · sad · anxious · angry · numb · excited, six precise words each), 15 trigger chips plus your own, a one-line note. Later: what you tried and whether it helped.
- **TOOLBOX** · Four lists — when anxious, when low, when numb or stuck, when angry or overstimulated. Small, specific, timed. 12 ideas to start. Each tool shows how often it actually helped, from your own answers. Safety card: people to text, helplines, things that stay true.
- **CALM NOW** · Box breathing 4-4-4-4, 4-7-8, slow 5-5 with a circle that grows and shrinks. 5-4-3-2-1 grounding. One small next thing. Your safety card.
- **PATTERNS** · 14 / 30 / 90 days: mood over time, average anxiety, low and good days, triggers that usually come with a low mood, feelings named most, mood by day of the week and by time of day, what actually helps. Print for therapy.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Mood.html	https://pablo96si.github.io/focusflow-mood/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Mood-Quick-Start-Guide.pdf

Focus Flow Meds · Doses, refills, appointments

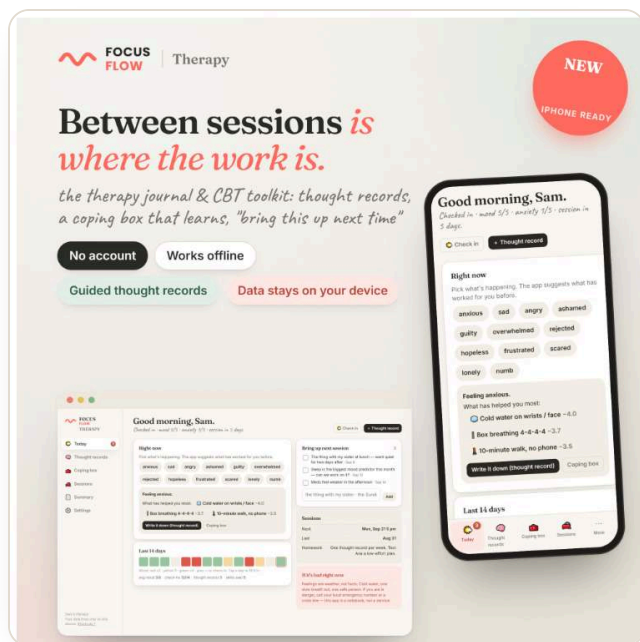

ADHD Medication Tracker App

- **TODAY** · Every dose in time order with a big "Taken ✓" (records the real time), Skip, Undo. Due / late states. "Did I take it?" shows the last logged time for each medication. Refill warnings, next appointment countdown, last-28-days adherence — information, never a streak to break.
- **MEDICATIONS** · Name, dose, one or more times, days of the week, with food, stock count, units per dose, what it's for, prescriber, pharmacy notes. Pause a medication without losing its history.
- **CHECK-IN** · Mood, focus and energy on a 1–5 scale, sleep hours, appetite, 12 one-tap side-effect chips (low appetite, rebound crash, trouble sleeping, headache...), a note for the doctor. 14-day focus grid. Pattern card: focus on days all doses were taken vs days with a missed dose.
- **HISTORY** · 30 days of every dose with its real time, filter by medication, fix a forgotten day, export CSV.
- **REFILLS** · Pills left ÷ doses per day = days left and the date you'll run out. Warning 7 days ahead (adjustable). "Refilled" adds the new box.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Meds.html	https://pablo96si.github.io/focusflow-meds/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Meds-Quick-Start-Guide.pdf

Focus Flow Therapy · CBT records, coping skills, sessions

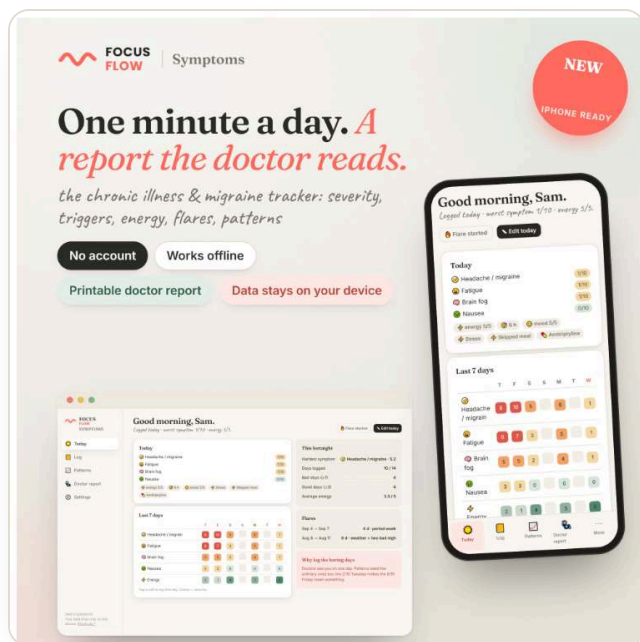

Therapy Journal App

- **TODAY** · Pick the feeling (12 chips) → the app shows the coping skills that have worked best for you, by your own ratings. Last 14 days mood strip. "Bring up next session" queue. Next session and current homework. A calm "if it's bad right now" card.
- **THOUGHT RECORDS** · Seven guided steps: situation → thought → feelings and intensity 0–10 → thinking traps (11 chips with plain explanations) → evidence for → evidence against ("what would you tell a friend?") → a fairer thought → intensity again. Your usual distortions ranked. Average before → after drop.
- **COPING BOX** · 12 starter skills (body, mind, people, do) with minutes. "Use now" rates before and after; the box shows "used 4× · avg –3.5". Add your own.
- **SESSIONS** · Date, time, what we talked about, what landed, homework, how it felt. Upcoming sessions highlighted.
- **SUMMARY** · Since last session on one screen: mood strip and averages, things to bring up, homework, thought records with before → after, distortions, what helped, triggers, notes. Copy as text.

Apps/Focus-Flow-Therapy.html	https://pablo96si.github.io/focusflow-therapy/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Therapy-Quick-Start-Guide.pdf

Focus Flow Symptoms · Chronic illness log, patterns, doctor report

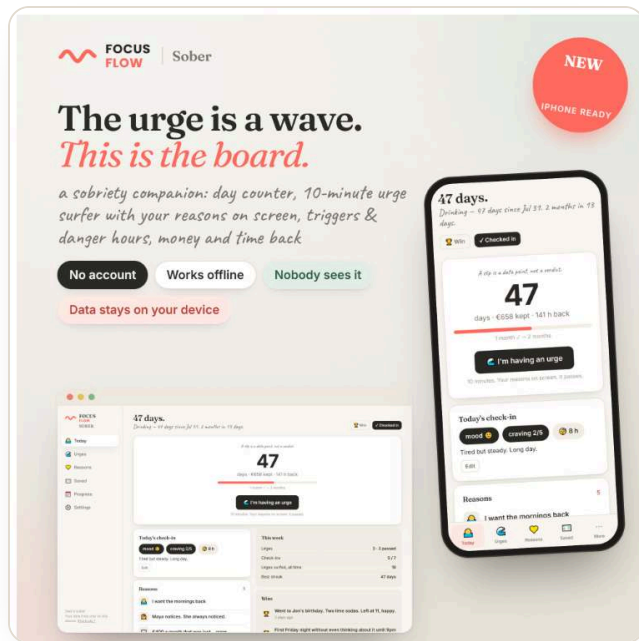

Chronic Illness Symptom Tracker App

- **TODAY** · What you logged, in colour. A 7-day heat grid per symptom plus an energy row (tap a cell to log that day). Flare mode with minimum-mode advice. This fortnight: hardest symptom, bad days, good days, average energy.
- **LOG A DAY** · 0–10 per symptom (tap a number), energy 1–5, mood, hours slept, one line, 14 editable trigger chips (poor sleep, stress, weather, skipped meal, dehydration, screen time, alcohol, caffeine, hormones, overdid it, noise/lights, food, travel, missed meds), meds taken. Skip anything you don't know. Log past days.
- **PATTERNS** · 30 / 60 / 90 days. Average and bad-day count per symptom. Each trigger: with vs without, sorted by real impact. Day of the week. Sleep under 6 h vs 7 h+. Plain-English insights only when a gap is real.
- **DOCTOR REPORT** · Last 30 days on one page: symptoms (average, worst, days ≥ 7 , week-by-week colour strip), energy & sleep, triggers noted, flares with causes, medication taken, notes, and your saved questions. Print, or copy as text into the patient portal.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Symptoms.html	https://pablo96si.github.io/focusflow-symptoms/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Symptoms-Quick-Start-Guide.pdf

Focus Flow Sober · Day counter, urge surfer, patterns

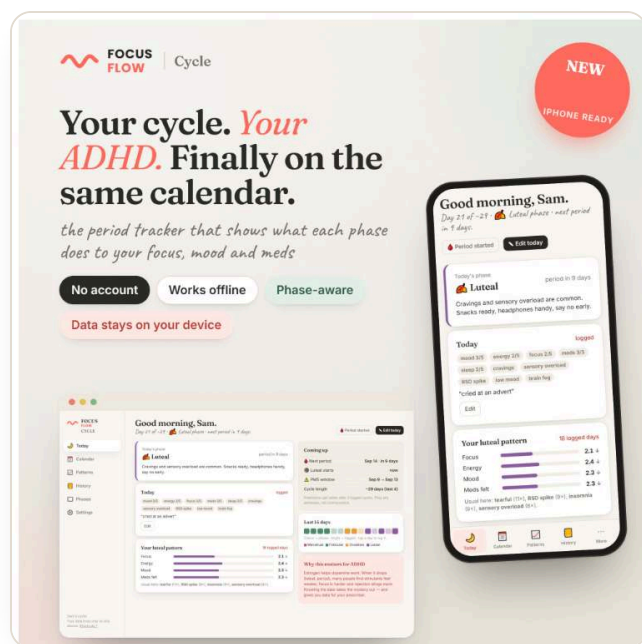

Sobriety Tracker App

- **TODAY** · The count. Money kept, hours back, progress to the next milestone (1 day → 1 week → 1 month → ... → 1 year). "I'm having an urge." Today's check-in, your reasons, this week's numbers, wins, and a calm card for when it's bad.
- **URGE SURFER** · A 10-minute countdown (you set the length). Name it → play the tape forward → do one thing. Your reasons in your own words. +5 min. "It passed — log it."
- **URGES** · Each one: strength 1–5, outcome, what set it off (15 chips), what you did (11 chips), a line. Triggers ranked. Danger hours as bars across the day. Urges per week. What worked, counted from your own passed urges.
- **REASONS & WINS** · Why you're doing this. What you've already done. Milestones ticked. A toolkit for the wave.
- **SAVED** · Money not spent and hours back, this streak and since you first started. Goals that fill up: the dentist, the trip, the bike — "39 more days".

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Sober.html	https://pablo96si.github.io/focusflow-sober/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Sober-Quick-Start-Guide.pdf

Focus Flow Cycle · Periods, phases, symptoms

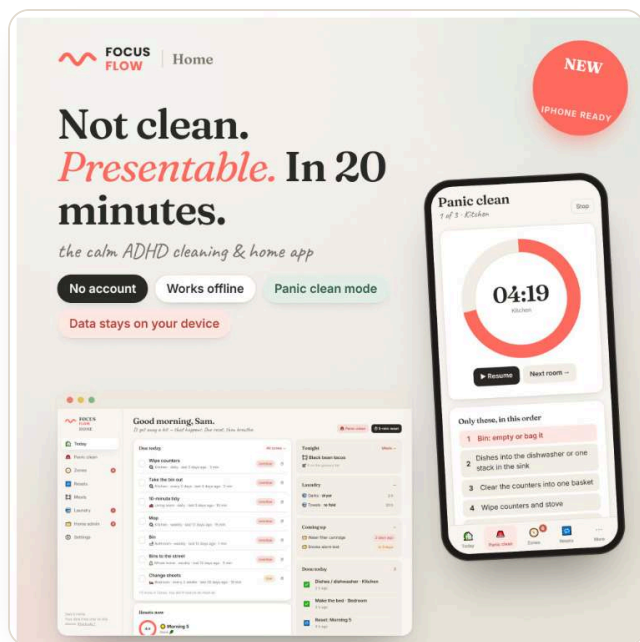

ADHD Period Tracker App

- **TODAY** · Cycle day, phase and next period in the header. Phase card with one practical tip and a PMS window warning. Log today in two minutes. Your pattern for this phase (focus, energy, mood, meds with ↑↓ against your average) and your usual symptoms here. Coming up: next period, luteal start, PMS window. Last-14-days colour strip.
- **DAILY LOG** · Flow, pain, mood / energy / focus / meds felt / slept (1–5), ADHD-aware symptom chips (brain fog, irritability, sensory overload, RSD spike, hyperfocus, restless, tearful, cravings, insomnia, cramps, headache, bloating...), one line of note. Tap any calendar day to log it late.
- **CALENDAR** · Phase colours, dashed predicted periods, ovulation marker, focus score on logged days. Periods listed with edit. Optional fertile-window estimate.
- **PATTERNS** · Averages by phase for focus, energy, mood, meds, sleep. Top symptoms per phase. Plain-English insights ("focus drops 48% in luteal", "meds feel 2.3 vs 4.3 — show your prescriber", "ask about PMDD"). Cycle length history and averages.
- **HISTORY** · Every logged day with its phase; every period with length and cycle.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Cycle.html	https://pablo96si.github.io/focusflow-cycle/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Cycle-Quick-Start-Guide.pdf

Focus Flow Home · Zones, resets, laundry, admin

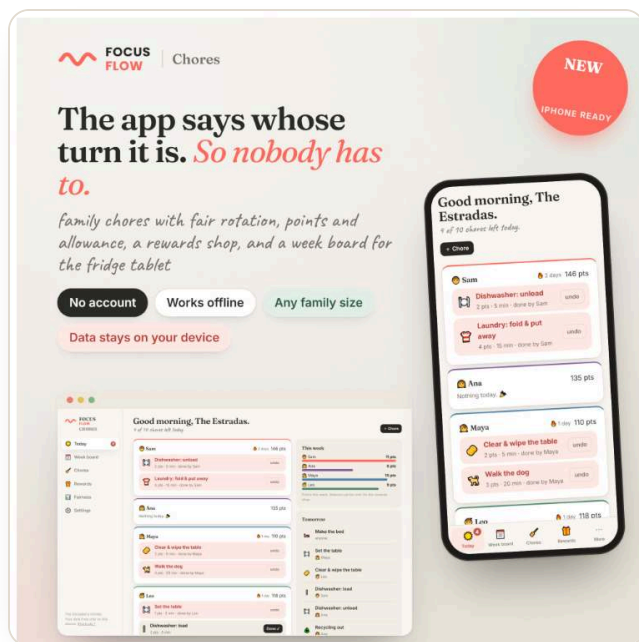

ADHD Cleaning App

- **TODAY** · Only what's due, sorted by how overdue it is, capped at seven. Energy check-in (low = one 5-minute reset is the whole plan). Tonight's dinner, laundry in progress, home admin coming up, and "Done today" — the honest list.
- **PANIC CLEAN** · 10 / 20 / 30 / 45 minutes across the rooms you pick. Five ordered moves per room. Timer with a shrinking disc, chime between rooms. Baskets are allowed. Doors can be closed. Logged afterwards, and the zones update themselves.
- **ZONES** · 6 templates (kitchen, bathroom, bedroom, living room, hall & entry, whole home) with sensible tasks and rhythms. Dust bars, zone scores, tick = reset, ⌚ timer per task. Add, rename, delete anything.
- **RESETS** · 5-minute routines for one spot: kitchen close-down, launch pad, morning 5, living room 10, bathroom 5. Run them one step at a time with minutes shown. They reset daily; half-done still counts.
- **MEALS** · Favourites you can make half-asleep, a week grid, "Fill the empty days", 🎲 I can't decide, and a grocery list that fills from ingredients.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Home.html	https://pablo96si.github.io/focusflow-home/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Home-Quick-Start-Guide.pdf

Focus Flow Chores · Family chores, rotation, points

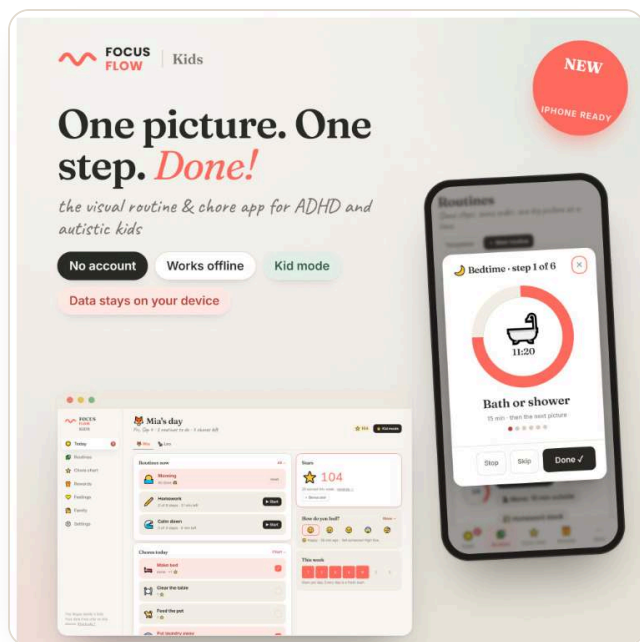

Family Chore Chart App

- **TODAY** · A card per person: today's chores, Done ✓, points, streak, balance. "Anyone" chores: tap who did it. Points this week side by side. Tomorrow's preview.
- **WEEK BOARD** · People × days, today highlighted. Tap a chore to mark it, tap again to undo. Back and forward a week. Points per person.
- **CHORES** · 22 common chores to pick from, or your own: emoji, name, room, rhythm, day or date, points, minutes, who. Rotation pool (kids only, adults only) and rotation offset.
- **REWARDS** · A shop per person: 6 starter rewards (ice cream trip, pick the film, stay up later, day out...) or yours. Greyed until affordable. Allowance mode: points × value, "Paid out".
- **FAIRNESS** · Minutes per person this week with %, points over the last 4 weeks, most-skipped chores in 28 days.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Chores.html	https://pablo96si.github.io/focusflow-chores/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Chores-Quick-Start-Guide.pdf

Focus Flow Kids · Visual routines, stars, feelings

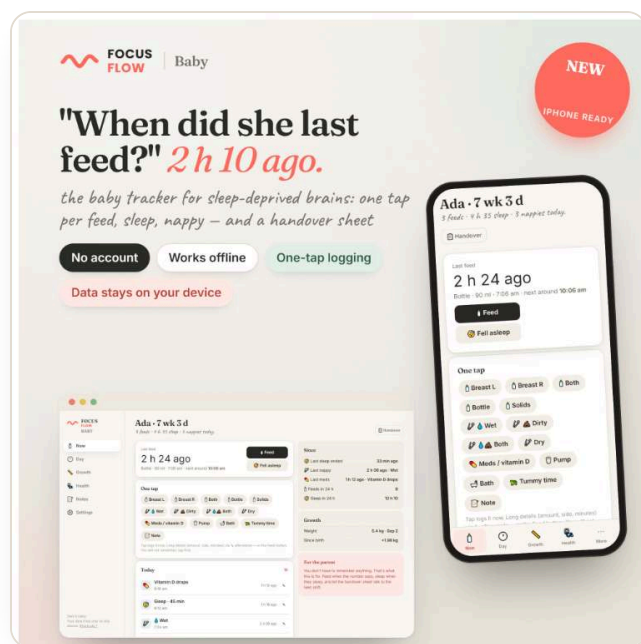

Visual Routine App for ADHD & Autism Kids

- **TODAY** · One child at a time (tabs to switch). Routines due in this part of the day, chores as big tap buttons with instant stars, star balance, quick feelings check, a week of dots. Kid mode: no menu, big buttons, parent code to leave.
- **ROUTINES** · 6 templates (morning, after school, bedtime, homework, tidy-up, calm down). Each step: emoji, words, minutes. The runner shows one big picture at a time with a shrinking timer, a soft chime, a giant Done button, Skip, confetti and a trophy at the end. Stars for finishing.
- **CHORE CHART** · One week per child, chores × days, tap a square and the star lands. Stars per chore, certain days only, one child or everyone. Bonus stars for kindness. Print for the fridge.
- **REWARDS** · Reward shop with progress bars ("6 more stars"). 7 ideas to start. Redeem with a tap. Redeemed history.
- **FEELINGS** · 8 big buttons (happy, sad, angry, scared, tired, silly, overwhelmed, bored). Each shows one idea that helps. Angry or overwhelmed → calm-down routine in one tap. 14-day summary for school or a therapist.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Kids.html	https://pablo96si.github.io/focusflow-kids/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Kids-Quick-Start-Guide.pdf

Focus Flow Baby · Feeds, sleep, nappies, growth

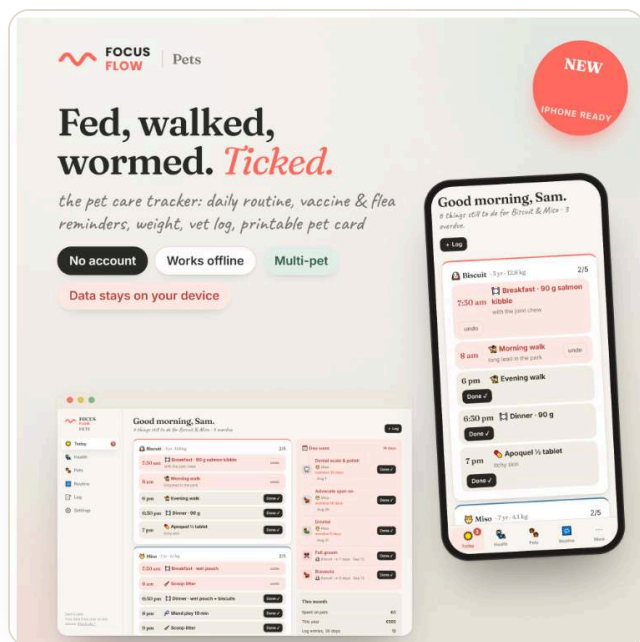

Baby Tracker App for New Parents

- **NOW** · Last feed counting up live with "next around". Feed form (side, amount, minutes, time). "Fell asleep" → "Woke up" sleep timer. One-tap row: Breast L / R / Both / Bottle / Solids · Wet / Dirty / Both / Dry · Meds / vitamin D · Pump · Bath · Tummy time · Note. Today's events. Since: last sleep, nappy, meds, feeds and sleep in 24 h. Growth summary.
- **DAY** · 24-hour strip (sleep blocks, feed / nappy / meds / pump marks). Timeline with edit. Totals: feeds with amounts or minutes, longest gap, sleep with longest stretch, nappies with dirty count, tummy time. Last 7 days of sleep with feed counts. Any day, any entry, any time.
- **GROWTH** · Weight trend with grams per week and % above birth weight. Length and head circumference. 16 milestones with "often around" weeks — windows, not deadlines.
- **HEALTH** · Symptoms, temperatures, vaccines, check-ups with times and "next" dates. Quick temp with a 38°+ under-3-months warning. "When to call, not log" list. Copy last 7 days for the clinic.
- **NOTES** · Tagged ★ First · ? Ask the doctor · 🍼 Me · note. Questions print on the handover sheet.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Baby.html	https://pablo96si.github.io/focusflow-baby/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Baby-Quick-Start-Guide.pdf

Focus Flow Pets · Routine, vet, weight, costs

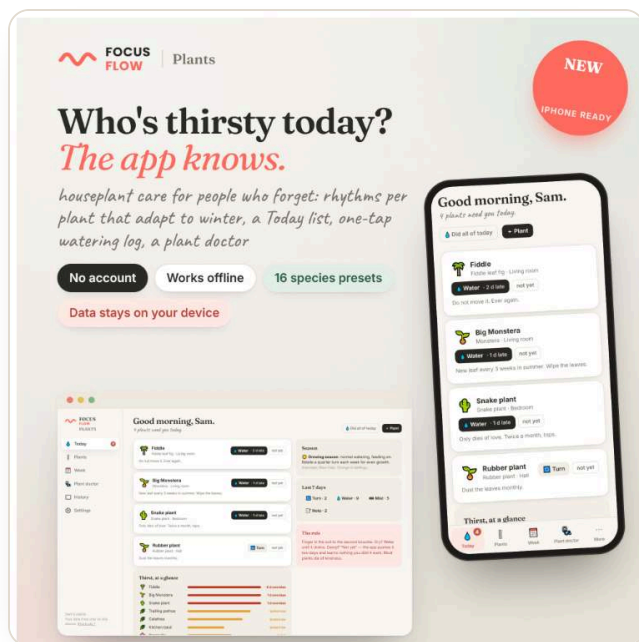

Pet Care Tracker App

- **TODAY** · One card per pet with the day's routine in time order (feed, walk, meds, litter, play) and Done ✓ / undo. Due soon: flea, worming, vaccine, grooming, insurance in the next 14 days — overdue turns coral, Done ✓ sets the next date. Quick log. Spend this month and this year.
- **HEALTH** · Per pet: protection status (vaccine, flea/tick, worming, dental) with next-due dates. Records: vet visits with what the vet said, treatments, medication, weigh-ins, costs — filtered by type. Auto next-due suggestions (flea +30 d, worming +90, vaccine +365, grooming +6 wk). Weight trend with a 10% change flag. Costs this year and all time. Print pet card.
- **PETS** · Name, species, emoji, breed, born/adopted, sex, neutered, microchip, vet, insurance, allergies & conditions, notes for a sitter, colour.
- **ROUTINE** · Daily tasks per pet with times and notes. Load a typical dog / cat / rabbit / bird routine and edit. Last-7-days grid.
- **LOG** · Symptom (mild / moderate / bad), toilet, food, behaviour, good moment, note. By day, filtered by pet and type. Copy last 14 days as text for the vet.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Pets.html	https://pablo96si.github.io/focusflow-pets/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Pets-Quick-Start-Guide.pdf

Focus Flow Plants · Watering rhythms, plant doctor

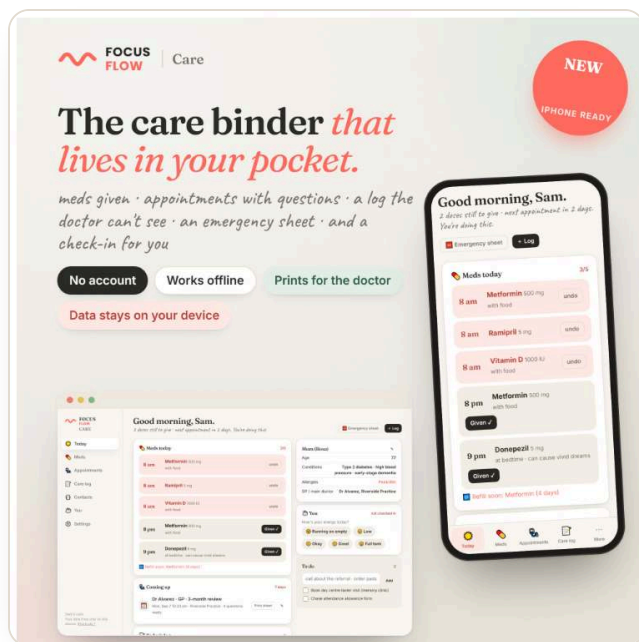

Plant Care App

- **TODAY** · A card per plant with a button for each thing due: 💧 Water, 🥒 Feed, 🌫️ Mist, 🔄 Turn, with "late" counts. "Not yet" pushes two days when the soil is damp. Thirst at a glance, red → green. Season card. Last 7 days. "Did all of today."
- **PLANTS** · 16 species presets (pothos, monstera, snake plant, peace lily, ZZ, fiddle leaf fig, aloe, orchid, succulent, calathea, rubber plant, fern, cactus, herbs...) that pre-fill rhythm, light and a tip. Name, room, pot and soil, light. By room. Profile with full history and your real watering average.
- **WEEK** · Seven days: every plant's water, feed, mist, turn on the day it falls. A going-away checklist.
- **PLANT DOCTOR** · 12 symptoms → fixes: yellow leaves and wet soil, brown tips, drooping (wet or dry), dropping leaves, pale stretched growth, spider mites, mealybugs, fungus gnats, stem rot, soil mould, sunburn. And the order to check.
- **HISTORY** · Every tap, per plant or all, by month. Repots, prunes, wipes, notes ("new leaf!").

Focus Flow Care · Caring for someone: meds, appointments, log

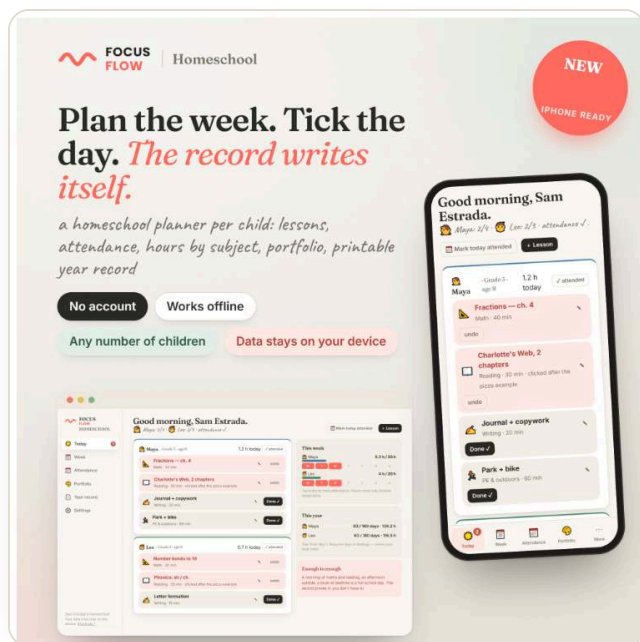

Caregiver Planner App

- **TODAY** · Every dose in time order with Given ✓ / undo, refill warnings a week ahead, the next 7 days of appointments with "Print sheet", a one-line care log with type chips, the person's card (age, conditions, allergies, GP), your energy check-in, and a small to-do list.
- **MEDS** · Name, dose, times, with food / before food / at bedtime, what it's for, refill date, notes, active or paused. 7-day given grid per medication. Print a one-page medication list with allergies on top.
- **APPOINTMENTS** · Who, what for, date, time, where. Questions to ask (one per line), what they said, follow-up (becomes a to-do). Print sheet: questions with tick boxes + current meds + last 14 days of the log. Past appointments kept.
- **CARE LOG** · Symptom (with severity), mood, food & drink, sleep, toilet, fall / incident, visit, note. By day, filtered by type. Copy last 14 days as text for the nurse or the family group.
- **CONTACTS** · Doctors & clinic, pharmacy, insurance & admin, family & friends, care services. One-tap call links. Notes like "Wednesdays 10–12" or "delivers Tuesdays".

Focus Flow Homeschool · Lessons, attendance, portfolio, year record

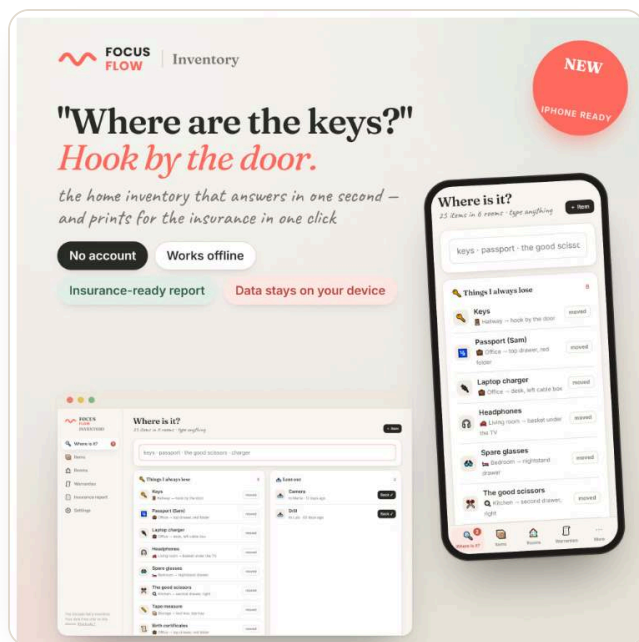

Homeschool Planner App

- **TODAY** · A card per child with today's lessons. Done ✓ = lesson done + minutes counted + day attended. Hours today, hours this week vs target, days this year of your required number. Copy yesterday when there's no plan.
- **WEEK** · A column per weekday, tabs per child. Lesson: subject, what, minutes, notes. "Repeat every weekday this week" fills the week from one form. Copy last week. Hours by subject.
- **ATTENDANCE** · A month calendar per child. Tap a day to toggle; hours from ticked lessons shown on each day. Days this month and this year.
- **PORTFOLIO** · One line each: work sample, trip, project, milestone, book finished — child, date, subject, note.
- **YEAR RECORD** · Per child, from your year start: days attended by month, hours by subject with %, lessons completed, books finished, portfolio table. Print with a signature line.

Focus Flow Inventory · Where is it, warranties, insurance report

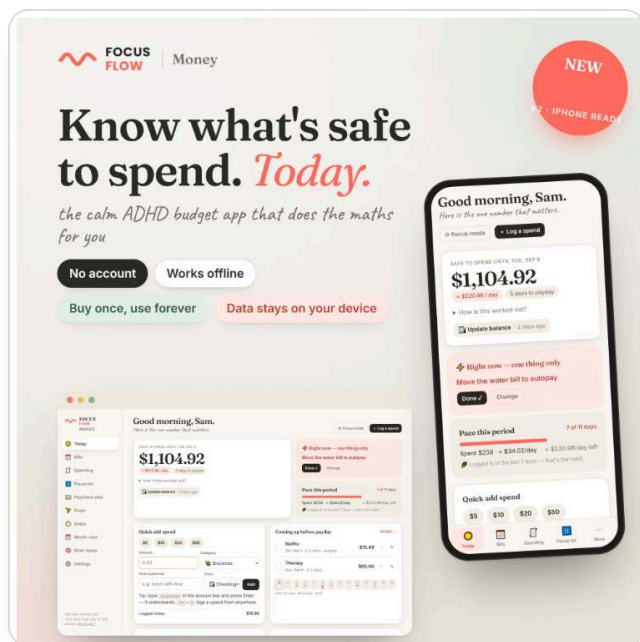

Home Inventory App

- **WHERE IS IT?** · A search box that matches name, brand, model, room, spot, tag or note. "Things I always lose" (🔑) with their spots. Lent out: who has it, since when, Back ✓.
- **ITEMS** · By room, filtered by room and 12 categories. Name, emoji, room, exact spot, replacement value, brand, model, serial, bought date, warranty date, receipt location, "often lost", note. Open an item to lend it or move it in two taps. Export CSV.
- **ROOMS** · Item count, value, high-value count and spots per room. Load 10 typical rooms.
- **WARRANTIES & RECEIPTS** · Ending within 90 days. High-value items without proof, flagged. All warranties in one table with serials and receipt locations; expired greyed.
- **INSURANCE REPORT** · Total replacement value, by room, by category, high-value items with serials and receipts. Print or export CSV.

Focus Flow Money · Budget, bills, pace, accounts

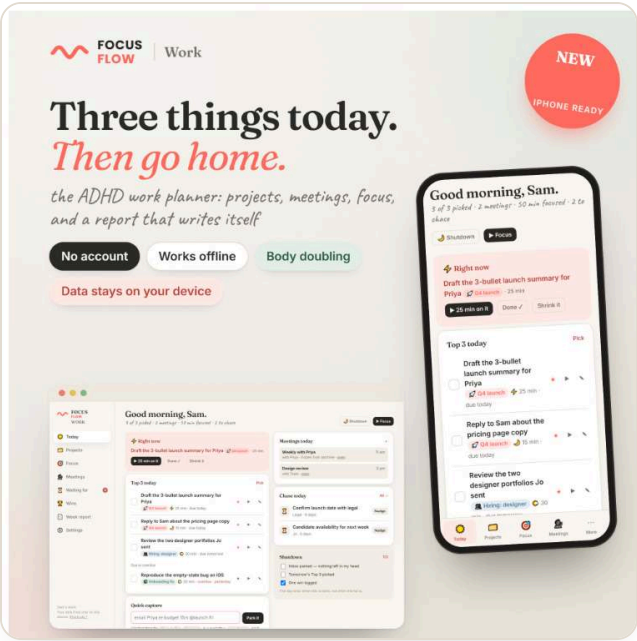

ADHD Budget Planner App

- TODAY · Safe-to-spend, pace for the month, streak, what is due this week.
- BUDGET · Envelopes per category, pots, what is left, 6-month trend.
- BILLS · Every bill with its date, paid/skip per occurrence, subscriptions total.
- TRANSACTIONS · 10-second entry, search and filter, accounts.
- PLAN · Month planner, goals, pots.
- SETTINGS · Currency, categories, themes, encrypted backups.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Money.html	https://pablo96si.github.io/focusflow-money/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Money-Quick-Start-Guide.pdf

Focus Flow Work · Projects, next actions, meetings

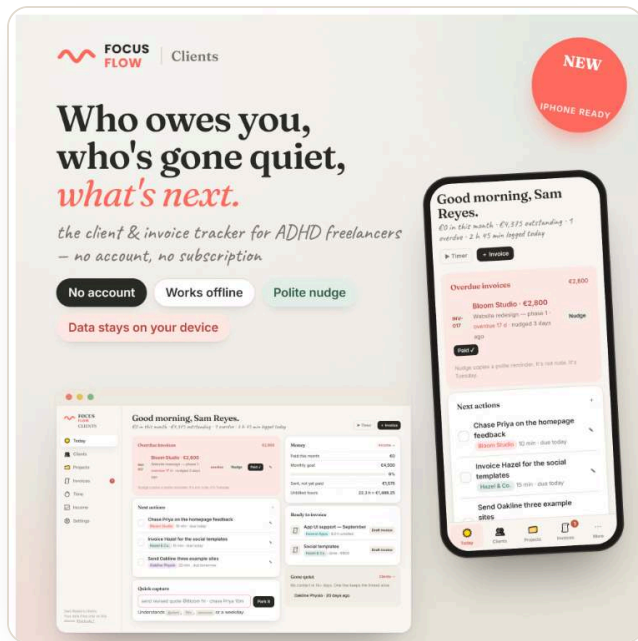

ADHD Work Planner App

- TODAY · Right now (one action, one ►), Top 3, due & overdue, quick capture ("email Priya re budget 15m @launch fri"), meetings today with open threads, chase today, stalled projects, 3-tick shutdown ritual.
- PROJECTS · Cards with the next action big, more actions under it, who you're waiting on, done count. Warning when a project has no next action. Pause, done, colours, stakeholder, due date. Add a next action inline.
- FOCUS · Shrinking-disc visual timer, presets 15 / 25 / 45 / 90, brown / pink / rain / white noise body doubling, chime, break, blocks logged per action, full-screen mode, "log a win" at the end.
- MEETINGS · Notes with "- [] thing" (mine) and "@them thing" (theirs) extracted as items. My items → actions in one tap, linked both ways. Their items → Waiting for. Prep for upcoming meetings: open items with that person, what you're waiting on, last notes.
- WAITING FOR · Everything in limbo with a day counter. Chase after 4 days (adjustable). Nudge copies a polite follow-up to your clipboard. "Got it" puts it back on your list.

Apps/Focus-Flow-Work.html	https://pablo96si.github.io/focusflow-work/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Work-Quick-Start-Guide.pdf

Focus Flow Clients · CRM, time, invoices

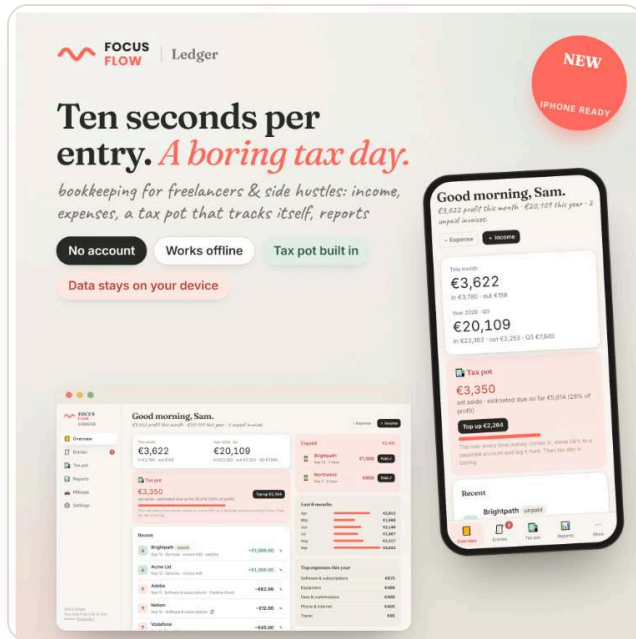

Client Tracker App for Freelancers

- **TODAY** · Overdue invoices with Nudge and Paid, next actions, quick capture ("send revised quote @Bloom fri"), paid this month vs goal, outstanding, unbilled hours, ready-to-invoice projects, clients gone quiet for 14+ days.
- **CLIENTS** · Stage (lead → proposal → active → done), contact, tags, colour, notes. Money paid and owed, open projects, last contact, next action. One-line contact log with optional follow-up. Search.
- **PROJECTS** · Board: quoted → in progress → with client → done. Fixed price or hourly. Timer per project. Draft invoice when done. Hours and value as you go.
- **INVOICES** · Draft from a project in one tap (unbilled hours pull in). Lines, notes, print to PDF with your business name and footer. Sent starts the clock, overdue turns red, Nudge copies a polite reminder and records the date, Paid = confetti. CSV export.
- **TIME** · Shrinking-disc timer with body-doubling noise, blocks log to the project. Log by hand. Unbilled until invoiced.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Clients.html	https://pablo96si.github.io/focusflow-clients/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Clients-Quick-Start-Guide.pdf

Focus Flow Ledger · Bookkeeping, tax pot, reports

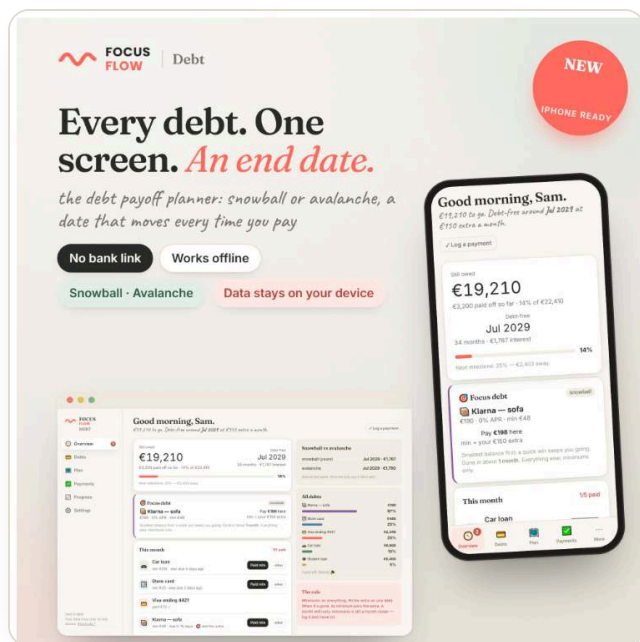

Bookkeeping App for Freelancers

- **OVERVIEW** · This month and this year: profit, in, out, current quarter. Tax pot: set aside vs estimated due, "Top up €2,264". Recent entries. Unpaid invoices with days outstanding → Paid ✓. Last 6 months of profit. Top expense categories.
- **ENTRIES** · Income (client, amount, category, note, not-paid-yet) and expenses (paid to, amount, category, note, receipt kept). 6 income and 15 expense categories that match a tax return. By month, filter, search. Export CSV.
- **TAX POT** · Year estimate: income – expenses – mileage = taxable profit, tax at your %, what's in the pot. By quarter. Every transfer logged (and paid-out when the bill comes).
- **REPORTS** · Pick a year: income by category, top clients, expenses by category, mileage, profit, tax set aside, receipts on file. Print or CSV.
- **MILEAGE** · Where, why, distance, round trip — deductible at your per-km/mile rate. Feeds the estimate and the report.

FILE	WEB-APP LINK (PHONE)	GUIDE
Apps/Focus-Flow-Ledger.html	https://pablo96si.github.io/focusflow-ledger/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Ledger-Quick-Start-Guide.pdf

Focus Flow Debt · Snowball / avalanche, payoff date

Debt Payoff Planner App

- **OVERVIEW** · Still owed, paid off so far, debt-free date, interest left, next milestone. 🌀 Focus debt with the exact amount to pay ("min + your extra") and when it's gone. This month's due list with "Paid min" one-tap buttons and overdue flags. Snowball vs avalanche in your numbers. All debts with progress bars.
- **DEBTS** · Name, type (credit card, store card, buy-now-pay-later, personal loan, car, student, medical, family, overdraft, tax, other), balance, APR, minimum, due day, note, colour. Progress since you started, interest per month right now, "gone in". Update balance from a statement. Delete with undo.
- **PLAN** · ❄️ Snowball (smallest first) · 🏔️ Avalanche (highest APR first) · 🖐️ Your own order. Payoff order with the month each debt dies. "What if I add a bit more?" table for +25 / +50 / +100 / +200 / +300 with savings. Balance-over-time curve. Compare all three including minimums-only. Stuck-debt warning when a minimum doesn't cover interest.
- **PAYMENTS** · Log a payment in seconds (minimum, min + extra, whole balance chips). Balance drops, plan recalculates, date moves. Paid-off celebration; its minimum joins your extra. By month, delete with undo.
- **PROGRESS** · Milestones at 25 / 50 / 75 / 100% with distance to each. Paid per month (last 8). Started with, still owed, debts paid off, interest per month, interest still to pay, saved vs minimums only. Paid-off list.

Focus Flow Jobs · Job hunt pipeline, stories, follow-ups

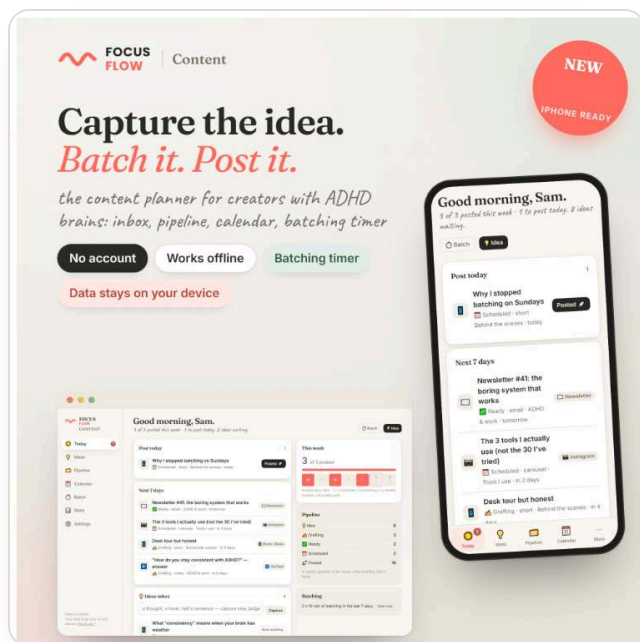

Job Application Tracker App

- TODAY · Next up: interviews and dated steps, follow-ups due (Draft → Sent ✓). Saved-not-applied with one-tap "Applied ✓". Probably ghosted after your silence limit. This week's count against target and a two-field quick add.
- PIPELINE · Saved · Applied · Interviewing · Offer. Tap to open, ← → to move, ✕ to close. Closed jobs stay as chips (rejected, ghosted, withdrawn) so the stats stay honest.
- JOB DETAIL · Company, role, link, location, salary, source (LinkedIn, Indeed, company site, referral, recruiter, job board), status, applied date, next step + date, want-it stars, contact, notes. Full log of every status change with dates. Add notes: what they asked, what you said. "Move to" chips. Offer celebrates.
- ALL JOBS · Search everything, filter by status, sorted by last activity.
- INTERVIEW PREP · STAR story bank (Situation, Task, Action, Result, tags). 10 common questions with a story picker for each. Coming-up interviews. Before-interview checklist. 5 questions to ask them.

Focus Flow Content · Ideas → drafts → posted, pillars

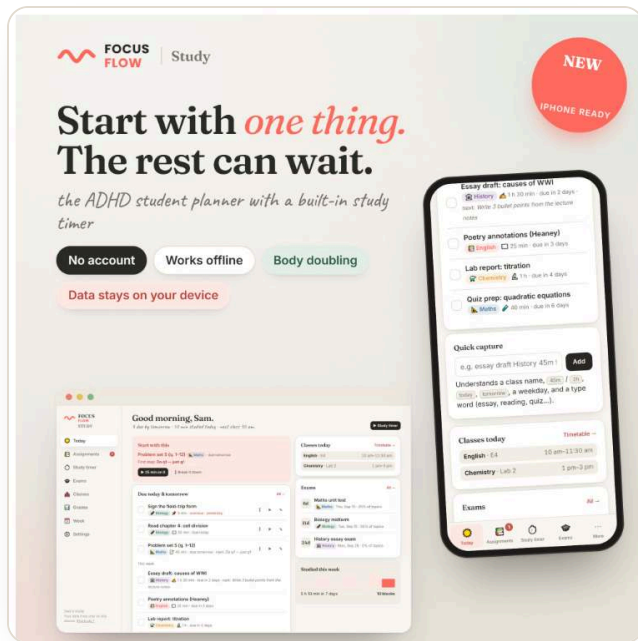

Content Planner App for Creators

- TODAY · Post today with "Posted 🚀" in one tap. Slipped pieces with "today" / "posted ✓" — no guilt. Next 7 days. Ideas inbox with capture field. This week's count against target with a 7-day strip. Pipeline health. Batching minutes.
- IDEAS · Capture in two seconds (press n anywhere). Spark 🔥 the good ones. Filter by pillar, search. Pillars bars show which theme you're starving. Six prompts for when you're stuck.
- PIPELINE · Ideas → Drafting → Ready → Scheduled → Posted. Cards with platform, format, date and the next tiny step. ← → to move, ⌚ to batch on it. Open a piece: hook, notes, "Move to" chips.
- CALENDAR · Week grid: one row per platform, one column per day. Tap a slot to schedule. Ready-to-schedule list. Built for fixed slots that survive bad weeks.
- BATCH · 25 / 45 / 60 / 90-minute timer with a shrinking disc and brown / pink / white noise. Pick a piece or a task ("Film 3 shorts"). Mark the new stage when it chimes. Sessions logged.

Focus Flow Study · Courses, tasks, exams, focus

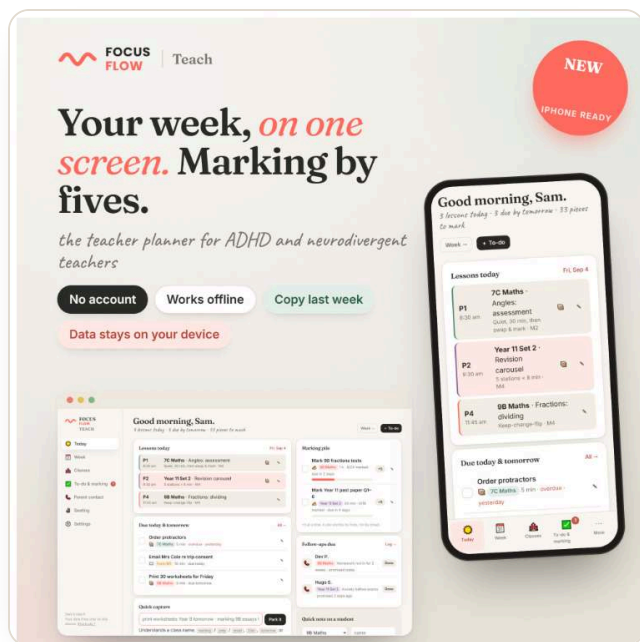

ADHD Student Planner App

- TODAY · "Start with this" (the app picks the next assignment and its first step), due today & tomorrow, this week, quick capture ("essay draft History 45m fri"), classes today with the current one lit, the next three exams with days left, studied-this-week chart.
- ASSIGNMENTS · Overdue · This week · Later · No date. Filter by class. Each row: class, type (homework, essay, reading, project, quiz, lab), minutes, due date, next tiny step.  task ladder with a 10-minute version. Done list for the nights you "did nothing".
- STUDY TIMER · Shrinking-disc visual timer for time blindness, presets 10 / 25 / 45 / 60, custom lengths, brown / pink / rain / white noise body doubling, chime, break, blocks logged per assignment. Full-screen mode.
- EXAMS · Date, time, room, topic checklist with progress. Days left ÷ topics left = "about 1 topic a day". Press ► on a topic to study it.
- CLASSES · Weekly timetable built from class slots, colours per class, teacher, room, open assignments and average per class.

Focus Flow Teach · Classes, lessons, to-dos, contacts

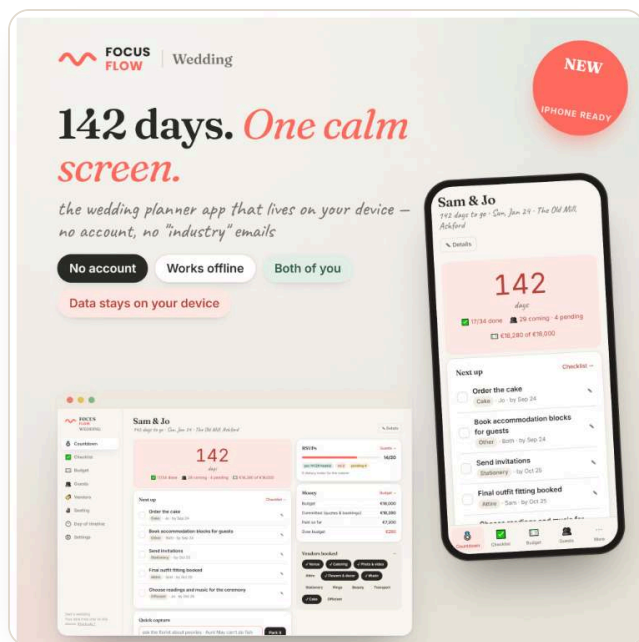

Teacher Planner App for ADHD Teachers

- **TODAY** · Lessons with the current one lit, first line of each plan, materials to bring, due today & tomorrow, marking pile with +5 buttons, follow-ups due, quick capture ("marking 9B essays fri"), a 5-second note on a student, tomorrow's lessons.
- **WEEK** · Monday–Friday × your periods, coloured by class. Tap a cell: title, plan, materials to print, room, taught ✓. Copy last week in one tap. Print. Sunday reset: three questions, ten minutes.
- **CLASSES** · Name, subject, room, year, colour, slots, students (paste the register). Recent notes per class. Tap a student for everything you've written about them plus parent contact.
- **TO-DO & MARKING** · Prep · Marking · Admin · Email · Order / print. Class, due date, minutes. Marking has a piece count and +5 buttons — confetti at zero. Overdue badge. Done list for Fridays.
- **PARENT CONTACT** · Call, email, meeting, note home, app message. Topic, what was agreed, follow-up date that nudges you on Today. Searchable.

Apps/Focus-Flow-Wedding.html	https://pablo96si.github.io/focusflow-wedding/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Wedding-Quick-Start-Guide.pdf

Focus Flow Move · Countdown checklist, boxes, addresses

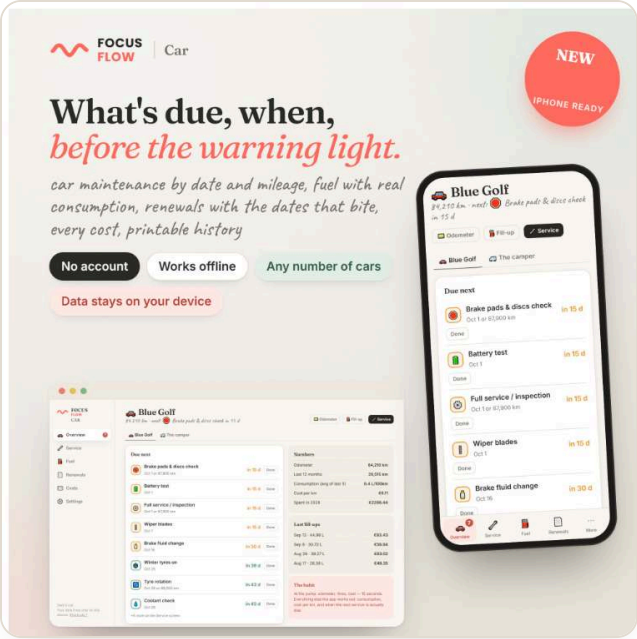

Moving Planner App

- **TODAY · Days to go.** This week's tasks with dates (overdue in coral). The first-night box. Progress: checklist, boxes packed, addresses changed, spent vs budget. Boxes by room.
- **CHECKLIST · 31 tasks** dated from your move day: quotes & notice (8 wk), boxes & time off (7), declutter & measure the doorway (6), pack the rarely-used (5), utilities & mail redirect (4), room-by-room packing & confirm movers (3), first-night box & address changes (2), freezer & meter readings (1), move-day rules, then kitchen-and-bedroom-only and the after-admin. Tick, hide done, add your own with a week number.
- **BOXES ·** Number, room at the new place, label, contents, fragile, first-night. Search any word ("kettle", "winter coats"). Filter by room. Unpacked ✓. Print big labels: number, room, flags, contents.
- **ADDRESS CHANGES ·** 20 pre-listed (banks, employer, tax, doctor, dentist, insurances, licence, voter registration, phone, internet, utilities, shops, subscriptions, school, vet, friends, post redirect). Tick, notes, copy new address.
- **BUDGET ·** Planned vs paid: movers, boxes, deposit, cleaning, furniture, utilities, and a "takeaway week" line.

Apps/Focus-Flow-Move.html	https://pablo96si.github.io/focusflow-move/	https://pablo96si.github.io/focusflow-suite/guides/Focus-Flow-Move-Quick-Start-Guide.pdf

Focus Flow Car · Service by date/km, fuel, renewals

Car Maintenance Tracker App

- **OVERVIEW** · Due next, sorted by urgency: red overdue, amber within 30 days, green fine — with due date and/or odometer and a Done button. Renewals with days left. Numbers: odometer, last 12 months, consumption, cost per km, spent this year.
- **SERVICE** · 14 usual items (oil, tyres, filters, brakes, battery, coolant, brake fluid, full service, timing belt, wipers, winter/summer tyres) or your own, each with an interval in months and/or km. Log a service, tick what it covered, the clocks reset. History with cost, where, notes. Print it.
- **FUEL** · Date, odometer, litres, cost, station, full tank. Consumption per tank (partials folded in), best and worst, this month's spend. L/100 km or mpg.
- **RENEWALS** · Insurance, inspection / MOT / ITV, road tax, parking permit, toll pass, licence — expiry, provider, policy, cost, claims line. "Renewed ✓" pushes the date forward.
- **COSTS** · Fuel, service, repair, tyres, insurance, tax, parking, washes, accessories — by category, by month, per km, per year. CSV export.

Little questions, quick answers

Do I get the apps you make after I buy?

Yes. The Suite is lifetime: every new Focus Flow app is added to the same download and the Hub, at no extra cost. Re-download from your Etsy purchases page.

Can my partner use it too?

The licence is for one household. Each device keeps its own data; use the suite backup to copy data between devices when you want.

Does it sync between my phone and computer?

No, by design — that is what keeps it private. Backup here, restore there; two minutes.

What if an app updates?

The web-app links update themselves. For local files, download the new ZIP from Etsy and replace the Apps/ folder. Your data lives in the browser, not in the file, so nothing is lost.

Something looks wrong on my screen.

Try Chrome or Edge (Firefox and Safari also work), make sure it's up to date, and message us on Etsy with a screenshot — we answer, personally.

Licence
