

FOCUS FLOW · WEDDING

Quick Start Guide

from download to a dated checklist in 3 minutes

The screenshot displays the Focus Flow Wedding app interface for a wedding named "Sam & Jo". The app is designed with a clean, modern aesthetic using a light beige background with red accents.

Left Sidebar: A vertical menu with icons and labels for various app features: Countdown, Checklist, Budget, Guests, Vendors, Seating, Day-of timeline, and Settings.

Main Content Area:

- Header:** Displays the wedding name "Sam & Jo" and the date "142 days to go · Sun, Jan 24 · The Old Mill, Ashford". A "Details" button is located on the right.
- Countdown:** A large red box prominently shows "142 days". Below it, a progress bar indicates "17/34 done", "29 coming", "4 pending", and a budget status of "€18,280 of €18,000".
- Next up:** A section titled "Next up" with a "Checklist →" link. It lists five tasks, each with a checkbox and a due date:
 - ☐ Order the cake (Cake · Jo · by Sep 24)
 - ☐ Book accommodation blocks for guests (Other · Both · by Sep 24)
 - ☐ Send invitations (Stationery · by Oct 25)
 - ☐ Final outfit fitting booked (Attire · Sam · by Oct 25)
 - ☐ Choose readings and music for the ceremony (Officiant · Jo · by Oct 25)
- Quick capture:** A section at the bottom with a text input field containing "ask the florist about peonies · Aunt May can't do fish" and a "Park it" button.

Right Sidebar:

- RSVPs:** A section titled "RSVPs" with a "Guests →" link. It shows a progress bar for "14/20" guests, with a breakdown of "yes 14 (29 heads)", "no 2", and "pending 4". It also notes "8 dietary notes for the caterer".
- Money:** A section titled "Money" with a "Budget →" link. It displays a table of financial data:

	Budget
Budget	€18,000
Committed (quotes & bookings)	€18,280
Paid so far	€7,200
Over budget	€280
- Vendors booked:** A section titled "Vendors booked" with a "→" link. It features a grid of buttons for different vendor categories, some with checkmarks indicating they are booked:
 - Venue (checked), Catering (checked), Photo & video (checked)
 - Attire (checked), Flowers & decor (checked), Music (checked)
 - Stationery, Rings, Beauty, Transport
 - Cake (checked), Officiant

Focus Flow Wedding v1.0

a calm wedding planner app: a countdown with a month-by-month checklist, budget with paid and due, guest list with RSVPs and dietary needs, vendors with contracts and payments, seating, and a day-of timeline.

Hi. This will be quick.

Focus Flow Wedding is a real app that lives in a single file. There is no account, no server, nothing to install — and no wedding-industry emails, ever. You enter your names, date and budget, load a checklist that dates itself backwards from the day, and then add vendors, guests and payments as they come. That's the whole method.

Everything you type stays on your device. Nobody can see it — not us, not anyone. The trade-off is that **you** are in charge of backups (see "Your data"). It's one tap; the app reminds you.

What's in your download

FILE	WHAT IT IS
Focus-Flow-Wedding.html	The app. Keep this file somewhere safe (your Documents folder is perfect).
Focus-Flow-Wedding-Quick-Start-Guide.pdf	This guide.
README.txt	The two-line version of this guide, with your iPhone link.

The 3-minute start

- 1 Unzip the download.** Windows: right-click → Extract All. Mac: double-click the ZIP.
- 2 Open Focus-Flow-Wedding.html.** Double-click it. If it opens in the wrong program, right-click → Open with → Chrome / Edge / Firefox / Safari.
- 3 Bookmark it** (Ctrl/Cmd + D) so it's one click away from now on.
- 4 Answer 3 quick questions:** names, date and budget; who's planning; load the templates. Or tap *"Explore with example data"* first.
- 5 Tick off what's already booked** on the Checklist. Add the venue as a vendor and a budget item.

Nothing you do here is permanent. Every delete has an Undo. "Start fresh" is always in Settings. Play.

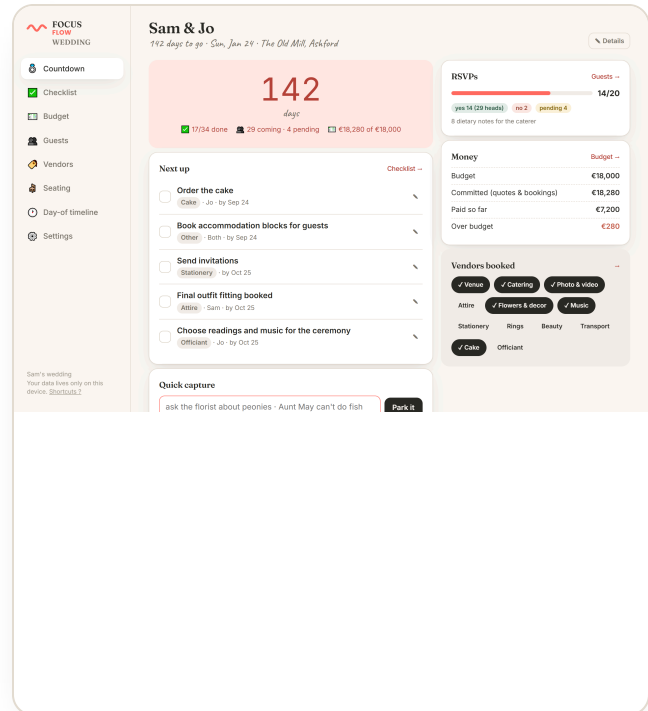

Days, next five things, RSVPs, money

Countdown. Days to go, checklist progress, heads coming, money committed. Underneath: the next five tasks by date, and a **quick capture** box for "ask the florist about peonies" at 11 pm — it lands in this month's checklist.

RSVPs. Yes / no / pending with head counts (plus-ones and children included) and a note on dietary needs. **Money.** Budget, committed, paid, unallocated (or "over budget" in red), and payments due in the next 45 days.

Vendors booked lights up each category as you add a vendor — the quickest way to see what's still missing.

Press / anywhere to jump to Quick capture.

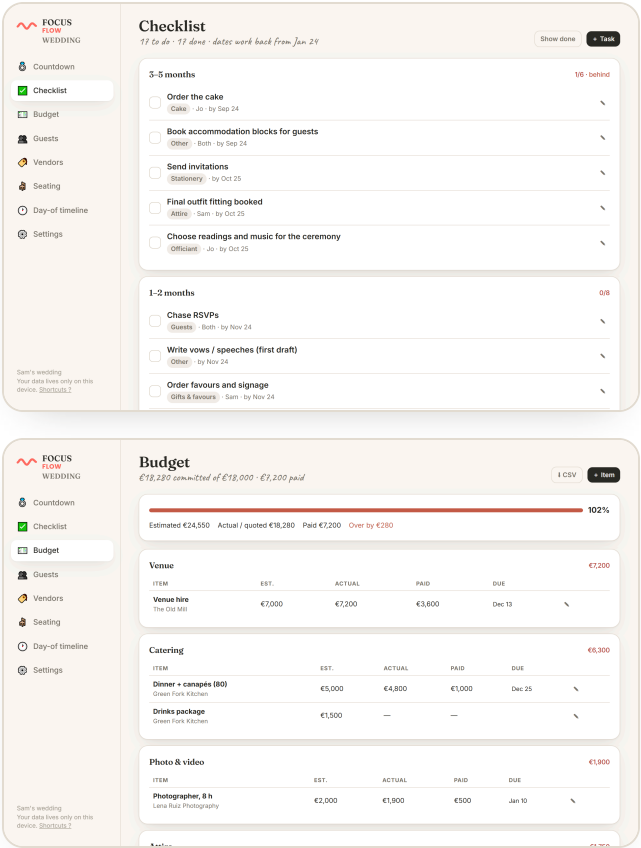

Dated backwards, counted forwards

Checklist

34 template items from "set the budget" (12+ months) to "eat breakfast, phone to someone else" (the day). Each has a category, a "months before" number and an owner: you, your partner, or both. Groups show progress and a red "behind" when a group's date has passed with items open. Change the date in Settings and every due date moves with it.

Budget

Items by category with estimate, actual (quoted), paid, and the next payment date. The bar at the top compares committed to your total budget; unallocated or "over by" shows in words. Link items to vendors, tick "paid in full", export CSV for the spreadsheet person in your life.

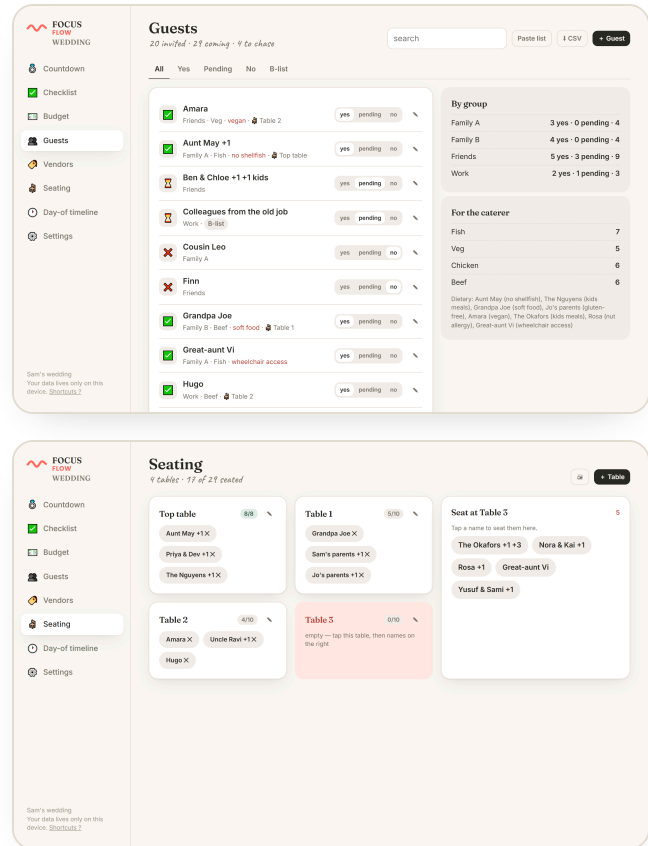

Who's coming, and where they sit

Add guests one at a time, or **Paste list**: one per line, "+1" for a plus one, "+2 kids", and a group after a comma ("Aunt May +1, Family A"). Each guest has a group, RSVP, meal choice, dietary or access needs, address and a note. Untick "A-list" to keep a B-list ready.

RSVPs are one tap on the row. The side panel counts by group and totals meal choices and dietary notes for the caterer. Filters: all, yes, pending, no, B-list. Search by name. CSV export.

Seating

Add tables with a seat count. Tap a table, then tap names from "Not seated" (only guests who said yes). Head counts include plus-ones and children; a table turns red when it's over. 🖨️ prints the plan.

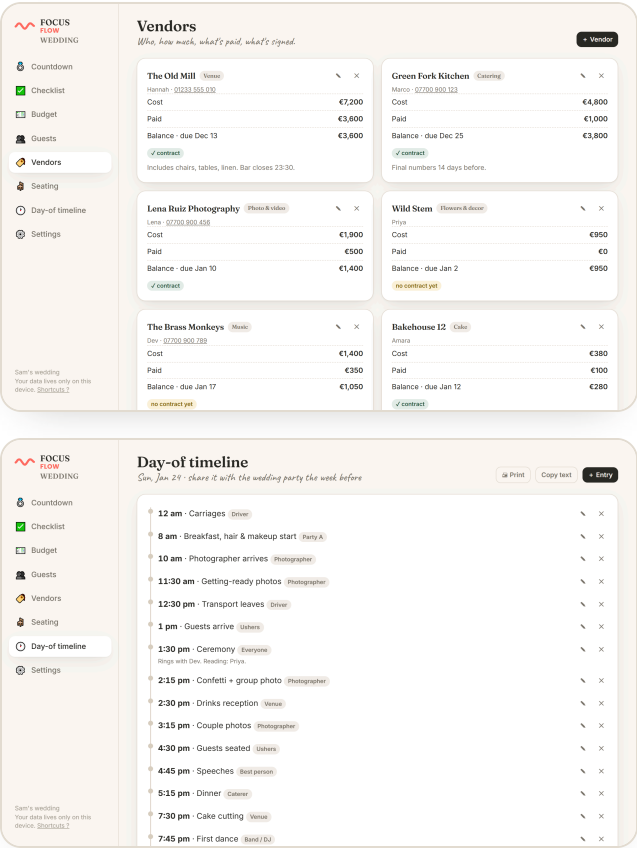

Contracts, balances, and who does what at 13:30

Vendors

Category, business, contact person, phone (tap to call), email, total cost, paid so far, balance due date, contract signed, notes ("needs a 13A socket near the dance floor"). A balance due within two weeks shows in red.

Day-of timeline

Load the 17-entry template (hair & makeup → carriages) and move the times to yours. Each entry has a time, what, who and a note. On the day, past entries light up. **Copy text** for the group chat; **Print** gives a clean page with every vendor's phone number underneath — hand it to one trusted person and put your own phone away.

Where your data lives, and how to keep it safe

The app saves automatically to your browser's local storage on this device. It never sends anything anywhere. That means two things:

✓ Private by design

No account, no password, no email, no tracking. Closing the tab, restarting the computer, going offline — all fine, your data is still there when you come back.

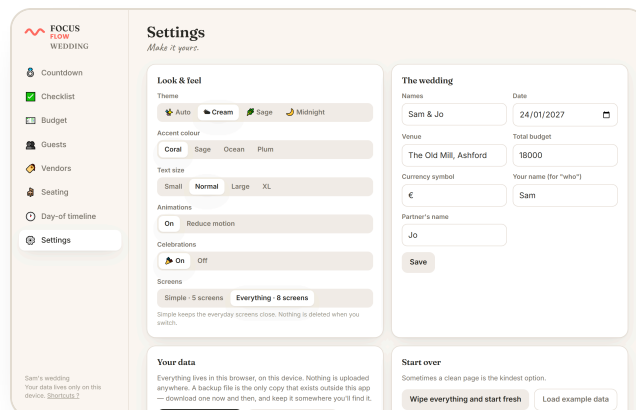

⚠ Backups are yours to make

Clearing browser data, using a private/incognito window, or some "cleaner" apps can wipe local storage. So, once in a while (the app reminds you after 14 days of changes):

- 1 Settings → **Download backup**. A small .json file lands in your Downloads.
- 2 Move it somewhere you'll find it (a folder, or your cloud drive).
- 3 To restore — on this or any other device — Settings → **Restore a backup** and pick the file.

Encrypted backups

Settings → **Encrypted backup** locks the file with a passphrase you choose (AES-256). Perfect for cloud drives. There is no reset — if you lose the passphrase, nobody can open it, not even us.

Using the app in a private/incognito window will lose your data when the window closes. Use a normal window.

Sharing a home or a household? Each person opens the file in their own browser profile — data is kept separately.

Opening the app on each device

DEVICE	HOW
Windows	Keep the .html file in Documents. Double-click → opens in Edge or Chrome. Bookmark it. Optional: in Edge/Chrome, menu → "Install page as app" / "Create shortcut" → it gets its own window and icon.
Mac	Keep the file in Documents. Double-click → Safari (or right-click → Open With → Chrome). Bookmark it, or drag the address bar icon to the Dock.
Chromebook / Linux	Open the file in Chrome from the Files app. Bookmark it.
Android	Copy the file to your phone (email it to yourself, or use Google Drive → Download). Open it with Chrome from the Files app. Chrome menu : → Add to Home screen gives you an app icon.
iPhone / iPad	Open https://pablo96si.github.io/focusflow-wedding/ in Safari. Tap the Share button (the square with an arrow) → Add to Home Screen → Add. You now have a Focus Flow icon that opens full-screen, works offline and keeps your data on your phone. The link only serves the app — nothing you type is sent to it. Please keep the link private; it is part of your purchase.

The web-app link works everywhere

The same link also works in Chrome on Android (menu : → Add to Home screen), in Edge/Chrome on Windows (Install app) and in Safari on Mac. Use the file or the link — whichever you prefer. Data is stored separately in each, so pick one and use a backup file to move between them.

Moving to a new device

Old device: Settings → Download backup. New device: open the app → Settings → Restore a backup. Two minutes.

Updates

Re-download from your Etsy purchases page any time. Open the new file, then Restore a backup if your data isn't already there.

Little questions, quick answers

Can my partner use it too?

Yes — keep the file on a shared device, or use Settings → Download backup to pass a copy back and forth. Two devices keep separate data, so pick one "home" for it.

We changed the date.

Settings → Date. Every checklist due date moves with it.

Different currency?

Settings → Currency symbol. It's a label; the maths is the same.

Can I print the guest list for the venue?

Guests → ↓ CSV opens in any spreadsheet. Seating and the timeline print directly with 🖨️.

Something looks wrong on my screen.

Try a different browser (Chrome, Edge, Firefox and Safari are all supported), and make sure it's up to date. Then message us on Etsy with a screenshot — we answer.
